Wacky cleaner keeps 'em rolling in the aisles

When sweeping man Albert Fuse sweeps the aisles at Rosie's Supermarket, all heads turn — the wacky tattoo hoverer through his job on roller skates!

At figures-racing eight wheels instead of two-feet runs his work time in half — and makes a brave as much fun.

"The customers can't help but coming and they turn around and see me and they're shocked," he laughed. "When they're able to speak again, help them say, 'Wanna come to our house and skate it clean?' "

Bobbing good-natured Al of Rockford, Mass., started skating as he ran up Bowery in nearby Stoughton about a year ago.

"I'd been skating most of my life," said the 26-year-old, "and I asked the boss if I could try it at work. He's a pretty good sport, so he said, 'Go ahead,' and it's been a hit ever since.

"I have to take my skates off to wash and wax the floor, but I skate when I sweep and buff. That's the best part — buffing on skates.

"I just hang on to the buffer and it sweeps me right along.

Energetic Al, who works all 40 hour week at two jobs, often skates for miles home which he enjoys doing and at 10 a.m.

On his night off, he goes to the roller skating rink — and he's a whiz on a skateboard.

"I don't get my wife to go skating with me," he says, "because she's too afraid of falling. But I love it and I get around pretty good.

"The only bad thing is not getting the speed going. But I won't quit skating like that. They don't know what to look at the rink that watches me. Here go other jobs like me ought to work a side on roller skates."

IT'S A MAD, MAD WORLD

Convoy of bug-eyed good buddies jam interstate following nude lady's car

A convoy of bug-eyed truck drivers jammed an interstate highway for about 20 minutes as they tried to get a closer look at a nude woman motorist.

The woman was first observed by a startled trucker driving south on I-35 near Kennewick, Wa.

The trucker and his good buddies soon drove behind and alongside the woman's car, rubbernecking their eyes in disbelief, while they scanned their CB bands with reports on her location.

The convoy stayed neck and neck with the woman's car for almost 15 minutes, then followed her onto a shopping center parking lot where she stopped at her station.

Meanwhile, the police were in the pursuit of the naked woman and they converged on the parking lot.

The 30-year-old recently divorced woman's excuse was that her car got too warm and she decided she would be more comfortable undressed.

"But don't you realize you could've caused an accident?" a cop asked.

"I didn't even think about that," the woman replied.

He builds a better mousetrap

Henry Sherman of Gettysburg, Pa., believes he's built a better mousetrap.

It's called Mouse House, and the idea is that the pesky mouse wanders into the tube-shaped house — and gets stuck on a sticky, adhesive substance.

"It stays happy, the mouse does even moves," Sherman said. "All the sensitive equipment has to do then is throw out the trap and the mouse."

There's no love, and no mice.

The inventor, a former cop, has entered $24,000 into the Mouse House, but he reckons people will wear a path to his door to buy it.

Brian brings the house down

Brian Sanderson, 41, literally brought the house down when he started the show at his 180-year-old home.

As soon as the door clicked shut, three-quarters of the massive home in Staffordshire, England, collapsed in a pile of dust and rubble.

Incredibly, Sanderson and his wife and two children were unhurt when the old house tumbled to the ground.

"I shut the door and the house fell down," Sanderson said. "Two of my sons were upstairs and saw the outside wall disappear."

Mrs. Dorothy Sanderson, 41, said: "My husband shut the door initially as there was repair work being done on the house.

"There was a sudden rumble and an almighty crash. Down came the gable end and half the front and back of the house. Only about a quarter is still standing."

The Sandersons say the house is insured, but the old Victorian building can never be replaced.

Energy boss packs his trunk

The director of a project that helps elephants evade their energy has wrested the hands of the whole thing.

Paul Lemon left the pachyderm project at the Baltimore, Md., Zoo after a dispute over the trip. But the scientist has been less than a success — the energy produced isn't enough to heat the elephant house.

Slip of the pen nets man jail

Richard Williams recently learned the hard way that it's very difficult to get a job.

That's because the East Orange, N.J., man slipped up once with signing the wrong name on his police reports.

But when it came to the final and most important page — his release form — his lie caught up with him and he blew it.

Williams was arrested for shoplifting, the police said, and when he was brought in headquarters, gave his name as Bernard Hamilton.

While his girlfriend got his $250 bail, "Hamilton" signed four reports on the incident. A routine check with a computer had earlier shown that "Hamilton" was not wanted for any crime, so when the bail was paid, he was given a release form to sign.

But "Hamilton" signed his release form as Richard Williams — and a quick check with a computer showed he was wanted for armed robbery.

Women cash in on hub caps

Two smart English women have come up with a way to cash in on the American automobile industry — they sell flashy hub caps as souvenirs, with plaques and fun words.

Penny Jones and Catherine Shakespeare borrowed 1,000 of the shiny wheel covers and put them on sale for his rock. Now they're doing a roaring trade.

"I got the idea when I visited Chicago, and was served breakfast in a beautiful Cadillac hub cap," Penny said. "I knew all my English friends would love to have one."

Heartbreak family

Clark and Sheena Reed sit outside their tiny trailer home with their pet dog. "We drew on God's love," she says.

Teenage mom has faced death twice and lost her only child, but she refuses to give up

By DICK DONOVAN

Courageous Sheena Reed has survived one heart-shattering tragedy after another — yet she refuses to give up.

How deep faith in God and the undying love she shares with her husband has kept her going despite the incredible agony that has wracked her young life.

In little more than a year, the plucky 18-year-old has had her baby mangled by a grain-shaving machine, been impaled on a piece that destroyed her lung, and awoke one morning to find her little baby dead in its crib.

And the kindly hard-working folks of Elkton, Ky., where Sheena and Clark lived live, now speak of her as "the toughest girl in Logan County."

"Clark gives me strength. Without him, I wouldn't have many a."

Sheena told The NEWS. "We have to lean on each other — try to keep each other going.

"We've had an awful lot of bad luck since we got married. For a while I thought maybe God was trying to show that me and Clark don't belong together.

"But when you have been through as much together as we have, you've got to figure you ought to stay together."

But nightmare began less than a year after they were married, as Sheena and Clark were walking together on the side of a road near their home.

A friend saw the couple and aimed his car as a prank. Clark managed to leap to safety but missed in his desperate attempt to pull his pregnant wife with him.

The car plowed into Sheena, hurling her through the air. When she finally regained consciousness in the hospital hours later, she had a shattered left leg, a fractured hip, three crushed vertebrae and a gash in her forehead.

"The doctors wanted to take my baby," Sheena recalled for The NEWS. "But I wouldn't let them. I figured if I was tough enough to make it, my baby would be tough enough, too."

When he was born, Sheena named him Clark Vinson Reed II and nicknamed him C.J.

But C.J. was born with a cyst on his brain, a "bad eye" and a strange spine.

"He was just a little bitty thing, a wonderful baby, so sweet and pretty, too," Sheena said with sadness creeping into her voice. "We kept on wanting to believe nothing was wrong with him."

When C.J. was four months old, Sheena and Clark drove to Clarksville, Tenn., to celebrate their first wedding anniversary. On their way home, their car swerved out of control, rammed a concrete culvert, flipped twice and plowed into 43 feet of plank fencing.

Clark was thrown free and escaped serious injury. But Sheena's chest was pierced by a 4-by-4 plank that pinned her to the front seat.

"Clark ran looking for help but no one would let him in their house," Sheena declared.

It took almost two hours for the ambulance to get to me and when the doctor saw me, he injected

We had to pay for the ambulance that took him to the hospital.

Rescue workers had to use a chain saw to cut away the plank.

The plank destroyed her right lung, fractured all the ribs on the right side of her chest, and severed her lip. The ghastly crash also shattered her right arm and leg.

Then only a couple of months after she was released from the hospital, Sheena and Clark endured their greatest heartbreaking tragedy — little C.J. died.

"We had slept late and when we awoke, we wondered why C.J. was so quiet," Sheena recalled, her voice shaking, slightly grief. "Then I heard Clark scream, 'Please, God! No! Don't let it be!'

"Then Clark came and told me 'The baby's dead!' We started crying and screaming. Then we wrapped him in his pale blanket and called an ambulance. Our baby was gone."

We put him in bed one night and the next morning he was dead," Clark added. "It's really hard to understand. One minute he was with us, the next minute he wasn't. The doctors told us it was 'walking' pneumonia and there was nothing we could do. There weren't any symptoms."

But the incredible string of tragedies has pulled the shattered couple closer than ever before and they know as long as they have each other, they will survive.

"Everybody keeps saying it will get better — losing C.J. — but it doesn't. It gets worse and it gets harder," Sheena explained. "All we ever wanted was a family and enough money to make ends meet. Now, Clark doesn't even have a job. But we'll make it.

Clark and me, we drew on God's love and His strength. Without Him, we wouldn't have

Step to the rear . . .

This is not your usual bus stop — and not your usual passengers. But these elephants aren't really going anywhere — at least not by bus. The scene was staged by a London, England, circus owner to get publicity.

Little Gre Brier sits amid a mass of books and disks at work at his job as the world's youngest disc jockey. Gre has his own show every Saturday morning.

Amazing kid, 6, is world's youngest radio disc jockey

Every Saturday, thousands of highway travelers while away their motoring miles listening to the happy chatter of 6-year-old Gre Brier — he's the world's youngest disc jockey!

And the smiling, twinkle-eyed young star of Station WLRA in Lenton, Va., has already built up an incredible audience of steady listeners who never miss his three-hour morning show.

"I like it a lot. It's fun talking to people on the radio," the boy told The NEWS. "When I grow up, I'd like to be a full-time disc jockey — and an artist and a cowboy, too.

"But right now I only work at the station on Saturday mornings. If I could, I'd like to do it every day. But I have to go to school.

Getting his record-spinning job at WLRA wasn't difficult. You might say he had a little in-side help.

His father, Paul, is the station manager.

And 17-year-old brother Rich has a daily, hour-long rock-music show. 15-year-old Corey does commercials, and 15-year-old Chris is the radio station's groundskeeper.

It's a kind of "All in the Family" operation.

"We really surprised me," his father declared. "He asked to go on the air to dedicate a song to a friend of his who had called in.

"Well, I thought he'd be nervous and botch it up. But he didn't. Once he got on the air, I couldn't get him off.

"He's a real ham," Brier added.

"But he comes by it naturally. I am a ham, too."

Gre's dad — a former rock musician and newspaper — handles the on-air broadcasting duties at the station from 6 a.m. to 10 a.m. and is always on hand to give Gre a hand on the youngster's Saturday morning stint.

"He's really not big enough to handle the turntables and he doesn't know the other equipment well enough to work by himself, so I work in the studio with him.

The station, located about 30 miles south of Washington, D.C., has been broadcasting for only four months and the Brier family has been building it from the ground up.

Though it now only hits the air waves from 5 a.m. to midnight, the station is scheduled to go into 24-hour operation early next year.

"Sometimes I forget the name of a singer and sometimes I get mixed up when I do a commercial spot," Gre admitted. "But I just put my hand over my mouth for a second, then do it right."

But being a child radio celebrity isn't always an glamorous as Gre thought it would be.

"One bad thing about it," he explained. "Even though I get paid, I always have to buy breakfast for the whole family every Saturday morning.

"I'm really not too happy about that."

Burglar caught in victim's tub

Priest finds mysterious $9,000 deposited in his church's poor box

A priest who usually found only a few coins in his church's poor box each day was astounded one day to discover $9,000!

"It's magnificent. It'll come in very handy," says Father Douglas Brown of St. Philips Church in Adelaide, South Australia.

The priest said when he opened the box on the lucky day he saw a large plastic bag crammed inside.

He says he was certain some inconsiderate person — or a prankster — had stuffed junk into the box. He pulled the bag from the box and out spilled hundreds of bills — $5, $10 and $20 bills.

The total face value of the money was $9,000 — but, he says, some of the bills were very old and likely would be worth a lot more in a collection.

Scrawled on a piece of paper stuffed in the bag was the word, "anonymous."

Father Brown says he used to refer to the small change left in the poor box as pennies from heaven.

Now, he says, he's very thankful for big bucks from

Parking ticket helps an amnesia victim recover memory after two years

A man whose memory was totally wiped out can now remember his past — thanks to a parking ticket.

Jim Cowan says two years ago he suddenly found himself walking through the Los Angeles International Airport. He had a plane ticket from Houston in his pocket.

Jim hired a private detective to help him uncover his past — but the leads proved fruitless.

Jim drifted to Minneapolis where he married and settled down, until the day he was handed a parking ticket. Cops said he owed storage, as he was taken to headquarters for questioning. There the cops found a missing person report on him.

When he was reunited with his parents in St. Patrick, Fla., his memory returned.

He says he apparently lost his memory after returning from a job in Mexico to find his first wife had divorced him and taken his children.

"I guess that's when I freaked out," says Jim.

Woman, 73, beats thief with cane

A 73-year-old woman beat the daylights out of a thief who was relaxing on her sofa.

Dorothy Pugh says she was the third unwitting fan she found's portrait in the lobby of an Atlanta apartment house.

It made her so mad she grabbed the old man's cane and began whacking the thief over the head. After taking an unwelcome shampoo, the thief raced away empty-handed.

The woman, Ralph Bates, 46, thanked Dorothy by buying her a soft drink.

Salvage ship finds sunken $120 million

A salvage company has found the wreck of a Dutch ship that was torpedoed and sunk by the Germans during World War I with an astounding $120 million in gold aboard.

The company says the cruiser Edinburgh is under the foot of water in the Barents Sea, about 170 miles from Murmansk, Russia.

Fergus Slade, manager of the salvage company, says the gold was being shipped from Russia to the U.S. to pay for weapons and equipment.

Under a tentative agreement with the governments of England and Russia, the company will get 10 percent of the gold — and the two countries will divide the rest.

Man wins 60Gs as his house burns

A man won $60,000 on a TV game show — while his home burned to the ground.

John Hanson of San Bernardino, Calif., who was among the five big winners on NBC's "Blockbusters," says flames spread by a brush fire destroyed his $150,000 home.

Most of the loss was covered by insurance, but luckily his TV winnings will cover the difference — with a lot left over.

Young docs learn bedside manners

Two doctors are meeting young physicians how to improve their manners because they lost modern medicine has lost the personal touch.

"The job of a doctor goes beyond simply saving if all of the organs are functioning properly," says Dr. Carolyn Hudson.

She and Dr. Paul Gentz have started their classes for young doctors at Children's Hospital in Philadelphia where they use closed circuit TV to watch doctors work with patients.

Later, the young doctors are shown the film and their behavior is corrected.

Brave mutt cracks dogfight ring

An undercover mutt named Pete has been credited with helping crack a brutal dogfighting ring. Pete, an 8-month-old pit bulldog, and his partner, Alan Hansen, were assigned by the Rochester, N.Y., police to crack a ring of hoodlums that were staging bloody dogfights for profit.

Hansen says two big operators were arrested after their undercover investigation — but not before Pete narrowly escaped death or serious injury.

Hansen says one of the arrested men wanted Pete to get in the ring with a killer dog — a much bigger and meaner mutt.

Pete's master called the man one of the loudest snarls, explaining that Pete was a bit young to fight.

Fan has 75,000 baseball cards

A 48-year-old man has collected 75,000 baseball cards — and one of them's worth a whopping $2,000.

Johnson says the most valuable card in the 1910 Honus Wagner "tobacco card." It's rare because anti-tobacco Honus discovered his picture was included in a pack of cigarettes and demanded that the cards be withdrawn. They were — but a few collectors' items are now circulating.

Doctors do the impossible & save drowning victim

Baby miraculously comes back to life after lying dead 20 minutes

By ROBERTA PALMIERI

A 15-month-old drowning victim was miraculously brought back to life after he had been dead for more than 20 minutes!

And doctors say little Darren Morris incredibly suffered no brain damage during his horrible ordeal and he should live a normal, healthy life.

"Not too long ago, if anyone came in not nearly as bad off as Darren was, he would have been pronounced dead on arrival," declared one doctor at Community Hospital in Long Beach, Calif., where Darren was revived.

"In fact, we wouldn't have applied any form of therapy because, at best, the victim would have been permanently disabled — probably nothing more than a vegetable."

Cheri Morris happily beams at her son Darren who came back to life after being dead for 20 minutes.

But a medical team worked feverishly to revive the unconscious boy because they had a revolutionary new device that could bail in Darren's skull that would help them keep his brain cells from dying. Still, the doctors had to struggle for more than 15 minutes before they were able to get even the slightest heartbeat from the helpless tot. At one point, a doctor warned his anguished parents, Richard and Cheri, that Darren was "clinically dead" and his chances for survival were "pretty slim."

The still unconscious young-ster was rushed to surgery where a small hole was drilled into his forehead. Then a small pressure-sensing device was locked in his skull.

The amazing device — called an "oxygen bolt" — warns doctors when cell-killing pressure is building in the brain. The doctors can then administer oxygen which lowers the pressure and miraculously saves the brain from irreparable injury.

"It was touch-and-go for four days," his mother told The NEWS.

That's how long he was in a coma. But when he started trying to pull the tubes out of his throat, the doctors said it was a good sign — it was a natural reaction."

It was Cheri's cool thinking and quick action that gave Darren a chance for survival. She described the nightmare ordeal for The NEWS.

"We had been putting up the Christmas decorations and were going from the front yard to the backyard. We had to leave the gate to the pool open. We're not sure, but we think Darren slipped through the gate, stumbled near the pool, hit his head and fell into the water. He probably was in the water five minutes."

She said when she and Richard missed Darren, they made a frantic search of the house. When they didn't find him, they raced outside, leaving the hall swimming into the street.

"I ran around the pool — it was dark by then — and I saw something in the water," Cheri recalled.

"Suddenly it hit me — it was Darren!

"I made me dive in reach him, pulled him out of the water and started giving him cardiopulmonary resuscitation. But I got no response. I knew I wouldn't lose my head — couldn't panic. I had to get air into him."

After nine days in the hospital, little Darren returned home with only a slight scar to show where the incredible "oxygen bolt" had been inserted in his skull.

400-pound movie star confesses his secret dream — to sing opera

Four-hundred-pound former wrestler Erland Van Lidth de Jeude is Hollywood's biggest new star, literally. But the balking movie mean man is dreaming of the day he can fulfill his life's dream — to be-come an opera singer.

The mammoth man is the hottest heavy in the movies with big roles in the box-office sizzlers "The Wanderers" and his current smash hit comedy "Big Crazy." The gentle giant, who holds a degree in computer electrical engineering from the prestigious Massachusetts Institute of Technology, was wrestling in the New York Athletic Club when his break came.

Producers for "The Wanderers," which is about tough New York street gangs, needed a menacing giant and called the coach to see if he had any heavyweights available.

Erland took the part which led to his tremendous role in "Big Crazy" with comics Gene Wilder and Richard Pryor. Big Erland plays a country singer named Grandberger who later befriends the wacko stars and helps them bust out of prison.

Since that film, Erland has been in New York studying voice and hopes to land an opera role. But movie fame is interrupting his quest.

"The phone has been ringing all the well ever since the film opened," he told The NEWS. "I've had calls from several film companies and from CBS on a pilot they're doing."

But Erland says opera is "the closest thing to my heart."

His older brother just finished a two-year run with the Chicago Lyric Opera.

And Erland and his 18-year-old sister are taking voice lessons together.

"I'm only 30 years old and what most people don't realize is that you don't start singing a lot of heavy opera roles at that age," he said.

"Your voice just hasn't really matured and you're not ready for it."

Next to singing, the burly film villain's favorite pastime

Richard Pryor, left, is terrified after being tossed in a cell with a gigantic mass murderer played by Erland Van Lidth de Jeude in "Big Crazy." Erland, right, was picked for the part because

Adventurers fulfilling a dream — crossing America by canoe

Saddle soar

Up . . . and over went the horse, but jockey Jim Dufferphoe just went up . . . and up at a steeplechase at Cheltenham, England.

They set a world's distance record a third of the way through their trip

Two determined adventurers left the security of home and job behind to chase their dream of seeing the country by canoe — and already they have captured a world record.

Verlen Kruger 35, and his son-in-law, Steve Landreh, 27, both of Lansing, Mich. are on their incredible journey April 29.

From the headwaters of the Missouri River at Red Rock, Mont., they paddled east and south through 27 states to land in Florida.

By late December, the daring duo in their specially built fiberglass canoes had paddled over 4,000 miles — nearly 1,000 miles more than the record for a canoe journey set by two Minnesota men after a two-year trip that ended in 1978.

"We're only a third of the way through," Steve said. "We hope to complete 15,000 miles by July 1983."

His father-in-law gave up his plumbing contractor business to make the trip. "Other people dream about giving up everything to travel and then never do it," he said.

"I did it. I'm living my dream. Call me crazy if you like, but there's a little bit of craziness in all of us and I've been planning this for five years."

Armed with maps and charts of their route that will eventually take them through 14 states, the paddling pair negotiated through heavy ice and commercial traffic on the Mississippi River.

Their tiny canoes looked like gnats almost to be swallowed by huge prey.

There were some pretty hairy moments," Landreh recalled. "But we never considered abandoning the trip.

"And there was so much beauty along the way, especially on the Missouri River. In May we watched the migration of the birds and there was an unbelievable amount of wildlife — deer running in the woods, birds everywhere.

"We had spent so much time talking about the details of the trip that we hadn't even given much thought to the beauty we'd see along the way."

Bitter cold greeted the canoeists in Maine.

"We planned to hit there in October before the real cold set in, but instead we hit the first cold spell of the year," Steve said. "We were camping out and it was so degrook. It was so windy that we couldn't canoe one day and when the winds died down, we set out again at 3 a.m. and paddled three hours through the night to reach a ranger station. Boy, that felt good."

Paddling an average of 30 miles in a 10-hour day, Steve and Verlen camped out most nights with occasional stops at hotels or with friends.

When they finally reached Florida, Steve's wife, Sarah, met him and joined the journey for five days.

It was Steve's solid interest in canoeing that led up the aisle to the altar. They met when Steve visited Kruger's home to talk about canoeing.

"Both of our wives have been very supportive during the entire trip," Steve said. "They know how much this means to us."

The stars hold the key to wedded bliss, expert says

A researcher has found startling evidence that happy marriages really are "made in heaven."

In a three-year study of hundreds of married couples, psychological researcher Beverly Sheffert has gathered incredible evidence that the Sun, Moon, planets and stars determine a couple's chance at wedded bliss.

The amazing results of her study gives strong support to astrologers who have long insisted that persons seeking marriage partners should carefully select their mates with other signs in harmony with their own.

People born under the "positive" fire signs of Aries, Sagittarius and Leo, and the air signs of Libra, Aquarius and Gemini, should stick with those signs to find a mate.

That also applies to people born under the "negative" earth signs of Capricorn, Taurus and Virgo, and the water signs of Cancer, Scorpio and Pisces.

The astrologers believe that positive and negative signs won't mix. In other words, fire (Leo) and water (Cancer) don't mix!

Sheffert, a British researcher at the Institute of Psychiatry in London, enlisted the aid of hundreds of couples who took the American Locke-Wallace marriage happiness test.

She then compared the test results of each couple with each partner's astrological charts. The results completely established her!

Almost all of the happily married couples have harmonizing sun signs. The unhappy marriages had clashing signs.

Though Sheffert admits she didn't believe in astrology before she started her project, she now accepts it as a predictor of personality.

"You don't have to accept astrology as a predetermination of your fate," she explained. "But I believe your horoscope tells you what your personality is going to be, so that it makes it fairly certain what you are going to do in your life."

Teens endure 5-day nightmare trapped deep in dark, icy cave

Robert Taber in the hospital.

A fun day of sipping beer and exploring an old cave turned into a five-day nightmare when two teenagers became trapped in a cold prison of darkness without food or hope of survival.

For 120 long hours, 19-year-old Robert Taber and Ronald Arnes, 16, were lost in the pitch black, 180 feet below the ground in one of the long, snaking caves near Clarksville, N.Y.

Huddled together against the damp, morgue-like, 45-degree temperatures, they took turns wearing the one warm coat they had between them.

There was no light and the only sounds in the tomb-like cave were the constant drip, drip of water, the flowing of a waterfall in the distance and the eerie sounds of bats that inhabit the cave.

Slowly the cold dampness seeped through their shoes and clothing, numbing their feet and limbs.

The boys were terrified to let go of each other, fearful that they would become separated for all time in the horrible blackness of the miles of winding tunnels. There was nothing to eat and little to drink except for the dampness that they managed to lick off the rock walls.

To keep up their spirits they sang Christmas carols and prayed to God.

Rescuers told The NEWS that it was a miracle that they found the boys alive.

In the minutes following his rescue, Ronald kept repeating over and over again: "I'm a Christian now."

"We were incredibly surprised to find them alive," said Nicholas Vlasic, the leader of the rescue party and teacher at the boys' school, Bethlehem High in Albany, N.Y.

"I don't think that I would have survived for 48 hours and they were there five days.

"The only thing I can say is God pulled them through."

Everything about the boys' rescue was "miraculous," according to Vlasic.

Ronald and Robert left their Friday afternoon class at Bethlehem High and climbed aboard the bus for Clarksville where Robert lived to explore the many caves. The youths bought two flashlights and a six pack of beer at a store.

As they inched their way down the sinkhole into the bottom of Wards Gregory Cave, Ronald's flashlight slipped from his hand and broke on the rock floor.

They continued on, but suddenly the other flashlight flickered out. Inky blackness closed in on them. There was no way to find their way out of the winding tunnels.

Both youths are wards of the state and it was days before workers at the home where Ronald lived realized he was missing.

A teacher at the high school remembered Robert saying he wanted to explore one of the caves.

Vlasic, head of a local cave exploring group, learned from other students the name of the cave which Robert had talked about.

"We were lucky we started with the right cave," he said. "There are dozens in the area."

The 11-member search party was certain they would not find the youths alive.

"We didn't think anyone could survive five days in a cave without food or water," said rescuer Doug Hawver. "I wouldn't do it."

Four teams of two searchers each entered the cave. Three of the teams had come out and the fourth was just leaving when they stumbled across the two boys, huddled together.

The boys were cold, hungry and frostbitten.

"I can't explain how they made it," said Hawver. "It really is a miracle."

Thousands across nation using Ohio man's sure-fire way to get rich quick

Are you an hourly worker?
Do you have little or no savings in the bank?
Are you in debt with mortgage payments and charge accounts?
Do you have little experience in anything except the rough specialty of your job?

If you've answered "yes" to all these questions, you are a prime candidate for a foolproof get rich quick system developed by a working man from Canton, Ohio. His name is Benjamin Suarez and he was in your exact same position not long ago. But, he changed all that by inventing a get rich quick system designed especially for the working man.

How did this system come about? You probably already know about Mr. Suarez and his system. Ads on his system and stories about Mr. Suarez have appeared in nearly every major newspaper and magazine in the country. Thousands of people across the nation have purchased the system and the stacks of letters from satisfied customers received by Mr. Suarez are overwhelming.

Mr. Suarez did not develop his system overnight. But his frugal, perfectly serious methods does generate income overnight.

Mr. Suarez's first successful system earned him $65,000 alone. What's it like to get $65,000 almost overnight in one lump sum?

"It's almost impossible to verbalize. My wife and I just stared at the check for a long time. We had a two day celebration with a dinner and party. Then I went back to work and told the shop boss, who thought he had me under his thumb, where he could stick his low paying, lousy job. Next we paid off all our bills including our home mortgage and had a bare-the-mortgage party."

The following day we went to an auto dealer's showroom and had driven right off a new luxury car. I never had the experience of a new car even as a child."

"Then my wife and I went on a shopping spree for clothes. We had been making do with old clothes for so long that the best bargains were out. She always had to shop for clothes with very little money. I always joked with her that if I gave you $5,000 to spend on clothes could you do it in one day? She used to say 'I could do it in a couple hours.' So that's what I did. I gave her $5,000 to go out and buy clothes. It ended up taking all day and the most minutes every minute."

"Finally, we took a long trip to New York. I bought her a large diamond at Tiffany's — another thing we always dreamed about."

"But I can tell you that the money was not the most important benefit in this. What always really does is give you precious time. Time to be with your wife and children before they grow up before you know it — and time to do things you really want to do. Another priceless thing your gain is your self respect. No more sweating and hurting because you're dependent. The words of Frank Sinatra's song 'My Way' was it all."

Benjamin Suarez

How much money can you make and how fast can you make it? Mr. Suarez averages around $300,000 for each system he produces. He says doing a system to make $40,000 or $50,000 is literally dash away. "I have these available to me all the time and don't even see them," he says.

How fast can you make money? Mr. Suarez stated, "You can actually make money within hours of order come. You can complete a system in one afternoon one day and start having spendable money in your hands produced by the system the very next morning."

Who all can do it and how can they do it? Mr. Suarez says, "I've done it 14 times as a test now. I taught my younger brother and brother-in-law the system and they've already made over $100,000 each. All you need is the ability to follow simple directions, common sense, and the ability to put a job through to completion."

This system is also perfect for people who are confined to homes, such as housewives. Mr. Suarez named his system "7 Steps to Freedom". He has been selling his system to others for a year now. The reason? "Why not?" he says. "First I thought I'd be a fool to keep a secret. But then I learned that the system won't be saturated, so why not sell it and make money by selling the system on top of the other money I am making using it."

People from every state in the union have purchased Mr. Suarez's system. What do these people have to say? Here are just a few comments:

"... It is such an excellent product that anyone who can read and follow instructions can be a millionaire ..." — William J. Baumgartner, Peoria, IL

"... This is the first time I have purchased a "get rich" product that I sincerely feel will work." — Earl J. Davis, Chicago, IL

"... After many years of searching for an honest system that will work, I believe I have found an honest one, and one I really want to." — John T. Vaughn, Narragansett, ME

"I have just received your system and have taken it to college. It has really lifted some eyebrows especially the first and last parts." — Mark Cooke, Rockhill, SC

A word to the doubting Thomases. Of course there will be those who will doubt that the system is for real. Mr. Suarez has licensed the system in nearly every newspaper in the country and he has sold his system to thousands of people across the nation and in every state of the union. The story has been checked repeatedly by newspaper reporters and government authorities at literally every level. The story checks out. Every word he has stated about his system is true or he would've been out of business long ago.

You can make $100,000 in a matter of weeks or days. In some cases money starts in hours. Here's how it works...

1 You will receive Mr. Suarez's system in the mail which contains everything you need to complete one of your own systems. From questions, such as your hobbies table, you complete the preliminary steps. This involves filling out provided forms and following provided outlines.

2 The preliminary steps of the system are done only one time. After these preliminary steps, you are on the verge of your individual system everywhere. Both your home, while you are receiving this literature from the individual systems on the marketplace or from a favorite restaurant. Again, by following outlines and filling out forms, you complete your individual system, each of which is in two parts. Part A and Part B.

3 After completing Part A and Part B of the system, depending on the type of system you do, you may either phone in Parts A and B of your individual system or you drop it in the mail. In the type of system where you phone in Parts A and B, you are virtually complete a system and afternoon and have spendable money in your hands the very next morning.

4 In a matter of days or weeks, depending upon which system you do, you can receive $100,000 for each system. In some cases, over 80% of the money will be in your possession in the first 4 weeks. Your money will either be deposited in your bank account or brought to you by mail to your home or place of business.

For those who wish to purchase the A.P.A.S. System, called "7 STEPS TO FREEDOM", it is being distributed by mail only for the present. Mr. Suarez has kept the price of the system low so those who most need it can afford it.

To order: (1.) Get a blank piece of paper. (2.) At the top of the paper, print the words "7 Steps to Freedom". (3.) Print your name and address (4.) Mail this along with $30.00 in cash, check or money order to: Quality Consumer, Dept. G-100, 706 Twelfth St. N.W., Canton, Ohio 44703.

Or, if you want us to start processing your order immediately, phone in your order as follows: (1.) Dial this TOLL FREE number: 1-800-321-0588. (Ohio residents dial 1-800-362-0536) and ask for operator G-100. (2.) Say the words "7 Steps to Freedom, A.P.A.S. system" (3.) Give your name and address (4.) Give the operator one of your following credit card numbers: Master Charge or Visa (also include your interbank number). Or, if you don't want to use a credit card, tell the operator you want it mailed C.O.D. Operators are on duty right now and around the clock.

Direct any inquiries to (216) 452-0588. Please do not dial the toll free number for information. The operators are not prepared or qualified to answer questions.

Charles Bronson escapes death in horrible cycle crash

* * *

Rugged Charles Bronson has flirted constantly with death in his films like "Magnificent Seven," above at left. And, incredibly, in his private life he narrowly escaped death in a motorcycle crash only because of his bare-nigger survival instincts.

Strong, silent superstar Charles Bronson pulled off a spectacular stunt to save himself from certain death in a motorcycle crash.

By DICK DONOVAN

The 48-year-old screen idol was testing his powerful motorcycle along a quiet, tree-lined street in Burbank, Calif., when a sports car suddenly swerved into his path.

The roadster had been sideswiped by another car and came to rest blocking the narrow street. Bronson had no time to stop — and his lightning-quick reflexes snapped into action.

Like a well-rehearsed stunt from one of his he-man films, Bronson gunned the cycle's engine to its full screaming fury, jerked the front wheel clear of the pavement and soared over the small car as its driver cringed in petrified fetter.

As the bike smashed back on the street, Bronson was hurled head over heels through the air and landed in a heap with a sickening thud.

For a few heart-stopping moments, Bronson lay motionless on the pavement. Then, as though a director had yelled "Cut!" he leaped to his feet and ran to see if the driver of the car was injured.

"It was the darndest accident report I've ever read," a Burbank police sergeant told The NEWS. "When it comes to a motorcycle we usually take the rider to the morgue.

"The way he handled that cycle, Bronson must be as tough in real life as he is in those films he makes."

The rough film-brawler, soon to be seen in 20th Century-Fox's "Death Hunt," suffered only minor bruises.

"He really isn't the supermacho type that he portrays in his films," Bronson's ex-wife Jill Ireland told The NEWS. "He really does like motorcycles, though.

"But in real life, he's a quiet family man, a pillar of the community — that kind of thing. He and his wife Jill Ireland are real outdoor types. He rides his motorcycle and she rides her horses.

And there's an ironic twist to Bronson's close shave. He is scheduled to take part in a newspaper and magazine campaign to promote motorcycle safety later this year.

"Cycling safely is a very important issue with him and he wants to help get the message across to everyone," Miss Ireland said.

Daring Czech sailor risks life for freedom in U.S.

A sailor from Communist-ruled Czechoslovakia risked his life by jumping ship to fulfill his lifelong dream of freedom in America.

Frantisek Dulek knew he faced a lifetime in prison or perhaps death at the hands of the lords if his freedom bid failed.

So, for two years, Frantisek patiently waited for the right moment to make his break.

Frantisek, a crew member aboard the Vltavotin, a 41,000-ton freighter, says his fellow seamen had become suspicious during their voyage to Philadelphia.

They guessed he was going to defect and tried to scare him out of it.

They told him he would be thrown in jail in America and forced to work at hard labor until he paid off a $10,000 fine for illegally entering the country.

They told him he'd be deported back home and thrown in jail — or worse — for trying to defect.

But Frantisek was determined. He says that things were getting worse in Russia-oppressed Eastern Europe. When the Vltavotin arrived in Philadelphia there was a mixup with papers and port officials refused to allow any of the ship's crew to leave the dock area.

Sailor Frantisek Dulek relaxes after escaping the Reds.

Frantisek told the ship's officers in charge that he wanted to buy beer along the dock.

As he walked down the gangway he made the usual joke that all the Czech seamen make — but he wasn't kidding.

"Well, I'm delivering now," he told the officer with a chuckle. "Tell my mother goodbye."

Frantisek went ashore then walked off the dock and the city.

He nervously asked for sanctuary.

Instead of being tossed into jail, Frantisek was treated royally.

A kindly detective put him up for the night in a local hotel and then took him to his home the next day.

Frantisek, who has a father, stepmother and stepsister in Prague, was then taken in by Paul Fierlinger, who had fled Czechoslovakia with his wife Helena 12 years ago and settled near Philadelphia.

"He's glad to be free in a free country.

"He's surprised at everything," said Fierlinger. "He's never seen so many cars and the city is so big.

"He's really surprised by the amount of food available.

Frantisek was also stunned by the friendliness of Americans.

One reason he defected here was because there is no prejudice against foreigners.

"People accept newcomers here," explained Fierlinger.

Already, Frantisek has been offered a job as a maintenance man in a local apartment complex and as a coach hand in California.

"And, he's met a girl too," said Fierlinger.

The $12,000 Secret of an Ohio Housewife

Have you tried to make an honest dollar at home lately?

My wife and I did. And, we found ourselves flooded with bogus envelope stuffing schemes, "party plans", and a variety of other non-profit boilerplate. It was a sour experience.

Then, several years ago at a bridge party, one of the guests began discussing a very different kind of special home "money project". The [illegible] was literally whispered across the table.

We discussed the idea as we were driving home. We decided to try it.

The project kept us busy about four hours a week. We used our dining room as an "office". At first our income was small — about $65.00 to $75.00 per week. But as the weeks passed we began making hundreds of dollars **each week** — all at home.

Let me emphasize one thing. This is very important. Our "money project" is moral, honest and downright enjoyable. And, it's 100% your own. It doesn't involve working for anyone else.

I explained the project to my mother in Akron, Ohio. She was 71 years old and lived by herself in an apartment on W. Market St. But within the first 90 days she made over $3,000.00. All by herself!

As our curiosity grew, we discovered a variety of other people making money but with somewhat different projects . . .

I talked with an Ohio housewife who's been earning thousands of dollars for over six years.

- She provides a needed service to her neighborhood.
- No one comes to her home - nor does she go to anyone else's.
- She uses only her telephone, a spiral notebook and a small filing box.
- She makes up to $100.00 per week, spare time.
- Her service requires no technical skill of any kind. Some states require a simple license.
- Many work for no one else. She does no selling whatsoever. Most of her clients call her at home.
- Her service is so simple that almost anyone could start the same project in **just 9 days!**

A woman in Pennsylvania uses a similar project to make up to $300.00 per week — all in cash — all earned at home.

An Oregon husband-wife team started the same project we did. In a recent letter they reported gross income of over $14,000.00—all earned at home!

Obviously, this is exceptional income. What you make will be largely up to you. But the income potential from some of these projects can be staggering! For example, a California couple using the same project we used made $14,870.00 in just five months.

Again, these data are accurate as we couldn't - and wouldn't - print them.

HOW TO START

This isn't a "get rich quick" scheme. These money projects will require time and effort on your part.

But you won't need "money" to begin. Most of the projects can be started on less than $25.00 . . . many on less than $10.00.

You won't need a car . . . in a few cases it would be helpful, but not necessary.

You won't need youth. Maturity and experience are excellent assets.

You won't need an "office". Just one corner of a spare room is usually sufficient.

Best of all, you won't have to wait. Most of these projects can be started in **just 9 days!**

We've put everything . . . every secret . . . in a [illegible] Guide. It's entitled THE $12,000 HOUSEWIFE.

TRY THIS TEST

1. When your materials arrive, select just one money project . . . the one you like best.
2. Try it for six months. Remember to begin slowly.
3. At the end of this trial period examine your income. If you're not satisfied with the results, return the book and we will REFUND YOUR FULL PURCHASE PRICE.

SIX-MONTH MONEY-BACK GUARANTEE

To prove that you can make extra money at home, you have our positive 100% money-back guarantee. Order your guide. Keep it for up to six months. This gives you time to actually try a project yourself. If you're not satisfied just return it. We'll send you a full refund within **three working days** — no nonsense — no excuses — no hassles.

If you're still skeptical feel free to **post date your check 45 days.** That way it's not cashable for a month and a half. I'll mail your Guide right away. Read everything. Try a project. Again, if you're not satisfied, return the materials and I'll return your original UNCASHED check. This way there is **absolutely no risk** to you!

Heroic pilot guides plane away from school before crashing into street

Student pilot John Testa miraculously escaped serious injury when he crashed nose first into a sidewalk in Massapequa, N.Y. — narrowly missing a school

Catherine Bach's broken heart soothed by Tinseltown playboy

By KITTY McNEAL

Sizzling Catherine Bach has jumped into the arms of one of Tinseltown's biggest playboys after her attempt to win back her marriage failed.

Cathy, who plays Peggy Daisy Duke on The Dukes of Hazzard, is running around town with blond tennis ace Nels Van Patten, the son of "Eight Is Enough" Dick.

The shocking new love match has stunned Hollywood insiders because of Cathy's recent desperate attempt to save her marriage — and Nels' track record as a fast-living ramsh.

Cathy made a last-ditch try to save her floundering marriage to construction titan David Wirtz.

They are a typical showbiz story. They fell madly in love four years ago, but the long hours of working for a top-rated TV show pulled them apart.

Cathy moved out of their Malibu love nest to be closer to the studio and David stomped the Hollywood scene she was trapped up in.

Cathy and David got together — but the problem remained. He wanted to start a family and she wanted to keep putting the kibbler to appreciation.

With their marriage ripped Cathy has taken up with tall, lanky Nels. A close pal of Hollywood's stocking all-star, she's also been linked with actress Valerie Perrine until a heavy breakup with junior punch Patrick Duffy.

Mark Cheese in his coin shop which he says accounts for only about 10 percent of his incredible $30,000 annual income.

Teen's making ■ mint ■■ ■ dealer in coins

A 17-year-old tycoon is earning more than $30,000 a year as a coin dealer.

Mark Cheese is believed to be the country's youngest rich shop owner. Run his Springfield, Ill., store exclusively by phone or mail, he does business buying and selling coins.

I made most of my money about by phone. Even traveling to coin shows all around the country, young Mark told The NEWS in November. So he doesn't want to New York this week. Chicago, Las Vegas and St. Louis.

The lanky schoolgirl hardly leaves Mark time to see his family, now he has all to himself.

By the age of 15, while most of his buddies were saving their pocket money for a second-hand jalopy, Mark was driving around town in his $12,000 Mercedes 450SL.

Looking at his notes a year in buy and sell coins didn't leave much time for high school — so Mark quit.

His mother, Karen Bray, works for the state of Illinois as a translator of what Mark makes. "I bought her a couple of diamond rings, but I don't help out at home," Mark said. "She pays by check by herself."

Mark says the older dealers hardly notice the difference in their age and his anymore.

"I started traveling to coin shows around the state about two years ago. In everyone's mind he did by now. And I'm used to being nasty. It's not as though I wake up one day and he's up. It's been building up a long time."

Mark's interest in coins began when he was 11.

He participated a 4-H starter collecting him a hobby and the hobby was a business.

I'm not a multimillionaire yet," he says. "But I will be someday."

Handling difficulty

A difficulty can either make or break you depending on how you handle it. Of course, there are circumstances in life that can be overwhelming. The world is full of obstacles, but I take this as a completeness paid to us by God. He gave us the tools to overcome those problems. And He has faith in us.

When the home of a friend of mine in California burned down not too long ago, I telephoned. "Bill," I said, "we heard about your loss and we've been concerned about you."

"Well," he said, "that house was made of flammable materials and there was a fire, and as it burned down. But, thank God my wife and children are safe."

"Did you manage to save anything?" I asked.

"Nothing but the clothes on my back and my faith in God," he replied. "But that's all I need. I'm just going to build again. So don't worry about me until I get into some real trouble," he said. He was saying in other words, when you and I have faith in God He becomes our strength and power and nothing can defeat us.

Vicious wave of crime & violence spreads terror in tropical paradise

A gunman sprays fire in a Miami street after a cop shooting that injured two cops and two women in the tomorrow city

By TIMOTHY THOMPSON

A shocking wave of murder, rape and plunder has turned a sun washed tropical paradise into a nightmare, leaving tens of thousands of helpless residents terrified.

And the violent crime spree has left the palm-studded and once peaceful streets of Miami, Fla., stained red with the blood of its innocent victims.

Police officials — who admit they're powerless to stem the surging tide of crime — say the current crisis is only the tip of the iceberg.

The worst is yet to come, a senior SWAT squad officer at Miami's Liberty City station warned The NEWS. "It's going to be open warfare on anybody and everybody on the city streets."

Even before the year's end, grim figures showed the city topped all the major metropolitan centers nearly every in the nation. The shocking statistics look like this:

● By late December Miami and the surrounding county had recorded 280 victims slayings, an incredible increase of 100 deaths over 1979.

● In a 12-day period begin-

Police predict open warfare will erupt on the city streets

ning November 1, the Metro-Dade police department recorded 11 murders.

● In the first six months of this year Miami's reported rapes (most rapes go unreported) were up 30 percent. Robberies rose by 9% percent.

● In that crucial nine-month period, 1,000 persons fell victim to lethal attacks and 30 percent of the victims were murdered.

● Because of the staggering rise in the number of muggings and attacks on helpless elderly residents, city parks now close at midnight instead of the usual 11 p.m.

"Crime has simply gone berserk in this city," outraged Miami attorney Robert Dyer told The NEWS. "You can't walk in the streets. You're constantly looking over your shoulder. You never know if you're the next victim."

Dyer, whose law office is on the western edge of Miami's downtown district, said at least 25 murders occurred in that area in a four-month period.

"We're scared to death," he admitted.

"It used to be fun to go out and party all night. We didn't allow our people outside without an escort and we've applied for a couple of gun permits."

In the posh beach area on the shoulder of the towering glittering condos and resort hotels — crime is soaring out of sight. Rape is up 60 percent over last year, robbery up 100 percent, assaults up 80 percent, burglary up 50 percent.

"An absolute war is being fought in our streets at night," declared Clyde Cunningham, Miami Police Commissioner.

Despite the city's continuing racial tensions and the influx of poor, often ill-educated Cubans and Haitian refugees, most of the blame for the city's nightmare crime wave — especially the skyrocketing murder rate — rests with Miami's shocking $7-billion a year illegal drug industry. It's even bigger than the area's $4-billion a year tourist trade.

The booming tropical capital of several pipe banks is said to be traced to huge deposits by drug smugglers and dealers. The surplus of the Federal Reserve Bank in Miami has swelled from one billion to almost 10 billion in the last five years!

Despite the staggering crime figures Miami's Attorney Janet Reno incredibly maintains that Miami's crime problem isn't any worse than any other major city.

However, crime statistics from other cities — Miami's 350,000 population ranks it 42nd in the nation — don't begin to approach Miami's increases.

Reno also points to a shortage of police officers as a major problem dealing with crime in the city.

Miami has 80 vacancies on its 940 man force and wants to increase the force to 1,000 officers. But because officers must live in the city, it is having trouble finding applicants.

The real problem is Dyer charged. "Any person who lives in this city doesn't want to see a policeman here.

"The way things are here the streets aren't safe for anyone!"

New film that stars two big names cost only $42

In a day when films usually cost more than the millions to produce superstars Goldie Hawn and Kris Kristofferson have made a new movie that cost only $42.

The only catch is you'll never be able to see it.

The unusual production, The Effect of Hollywood, was made at the Motion Picture Country Home and Hospital and will be shown only to members of the entertainment industry as an attempt to raise money for the home and hospital.

Goldie and Kris aren't the only big names in the half-hour film. Bob Cannon has a major part.

There are also guest appearances by some of the veterans of the industry. Stepin Fetchit, Mae Clark and Virginia Sale, all residents of the home.

Actress Linda Kelsey spins wool into yarn at her apartment — the first step in the long, but rewarding process of making a sweater. Wool, she says, is tough to find anywhere

Pretty 'Lou Grant' star earns big bucks but still makes her own clothing

By JOHN MARRELL

Pretty Linda Kelsey is paid $20,000 per episode for the "Lou Grant" TV series — and the talented actress also makes her own clothes.

And incredibly, the busy young woman often starts from scratch, spinning her own sweater yarn from wool.

It just seems to be the thing to do, the pert 28 year-old newcomer explains, told The Weekly at her Studio City, Calif. apartment.

"For starters and eggs are things that I can make a lot cheaper than anything I can buy in a store."

When I used to buy clothes, many of the things were poorly made. There would be flaws and buttons sewed on wrong and in general just poor workmanship.

"That stuff is an insult because that's just don't the least good.

And although the frustrating experiences of going into shops after things Linda says that she got bored with it all.

"I would go into boutiques and see something and say to myself 'I could do a better job of engineering that.' And then I'd look at the price and it would seem to me all I bought that per sweater. Both it would be the same as throwing my money out the window of a moving car."

Also the red-haired actress thought a personal knit with her own flair would in fact make better clothes than she could buy. That's all a start to get her going.

Also back at the apartment she's a "do-she says matter-of-factly.

"The spinning wheel and loom are essentially a one time expense. The wool is the hardest as the bills up a small bag, and about $10 and I will be able to make an entire sweater of it.

Already, you can see how ridiculous it is to buy."

For the busy matter, who just in the last couple of years has learned to weave, time is her worst enemy. Lucky for her, she's efficient.

Linda Kelsey earns $20,000 per "Lou Grant" episode.

Gloria Kurland has husband of a year and a half also knits and weaves.

"And the pay for the obvious advantages of making your own clothes, selling at a loom really relaxes you as you get into it.

"First, I take the raw wool and comb it to get out the kinks and dirt. It's itchy.

"Then, I take a big puffy of the fluff, and with the assorted rotating of the spinning wheel, I make the yarn or string into the ball that will be woven on the loom.

"I think that the spinning wheel and the loom are the most extraordinary and fascinating inventions, and yet, so simple."

Still, there is only one drawback for Linda Kelsey and others who prefer to make their own clothes out of wool and cotton.

"Wool is difficult to buy," she says with a sigh. "It's just not that common of a thing to buy, so whenever I see it at the mall, I buy it up."

When asked why a person who has little time to spare and makes so much money prefers making her own clothes, the actress said:

"Because I enjoy living with the material rather than of practicing. Besides, this way I also have my own designer line — original, huh?"

There's no doubt that many people would like a Linda Kelsey original — who could resist a higher paid personality?

Army fights rooftop sunbathing, boozing

The U.S. Army has launched a campaign to keep soldiers from lounging on barracks roofs — because they keep falling off and getting hurt.

Sgt. Marion Sage at Fort Ord, Calif., says the effort's being made because in the past few months six soldiers have toppled from roofs at the base.

Sgt. Sage says the troops have been using the rooftops for sunbathing, hanging out laundry — and boozing.

Man carried the unborn fetus of his twin in his head for 21 years

"These were apparently identical twins [redacted] cases where one twin [redacted] the other [redacted]

"When the brain of one was being formed the egg in the other found its way to and got lodged there.

"The cells [redacted] anywhere in the body," he said. "What makes this case so extraordinary is that the unborn twin apparently found its way into his head."

Dr. Rampen is now a professor of obstetrics and gynecology at Ohio State University School of Medicine in Columbus.

In a similar case reported previously by The [redacted] in Italy, a man in the Soviet Union [redacted] was found to be growing in his lungs. Doctors were stunned to discover it was the calcified remains of his unborn twin.

And although there have been [redacted] cases [redacted] being found [redacted] years later, Nick's case is all that much more shocking because it was the first time doctors could remove a fetus lodged in the skull of its twin.

Dr. John Sciarretta, a neurosurgeon, performed the eight-hour operation on Nick at Deaconess Hospital in Spokane, Wash.

"I don't know what I just took out of your son's brain," he told Nick's parents, Merle and Helen Hill. "But it wasn't a tumor."

What lived in the strange mass — the size of a large plum — came back from the theater with the doctor was stunned.

"It wasn't a tumor," Helen Hill said. It was bone and cartilage and other remnants of an unborn fetus.

I don't know who was more shocked — the doctor or us.

"When we found out what it really was — an unborn twin — I didn't even think about the other child I thought was dead. Nick was the fourth of eight children and he was so active and spunky as a youngster I don't know how I could have handled it if there were two like him.

"I was just so relieved that he was going to live.

By the time the bizarre growth — called a teratoma — was discovered, it had wrapped itself around Nick's optic nerve.

"Ever since I can remember even when I was a little boy — I had splitting headaches," Nick said.

"I took a lot of aspirins and in high school I couldn't play [redacted] Sports because anything would start my head throbbing again."

As Nick got older, the headaches got worse. They began to take their toll on his eyes. He could see straight ahead, but could not move his eyes up and down.

He never suspected that the threads of an unborn baby were strangling the optic nerve in his right eye.

"Finally, about a year ago, the headaches were so bad I had to call in sick every day for a week," the gas company worker said.

"I went in the doctor and he sent me to an ophthalmologist who sent me in Spokane for a brain scan."

That test showed two "tumors" — one behind Nick's eyes, the other at the base of his skull.

The first was removed in January and doctors say it was human tissue. The second — the unborn twin — was removed in March.

Nick is fully recovered and back at work although he still may face eye surgery.

"For the first time in my life, I am not having headaches," he said. "I feel better than I ever have.

"But every time I think about packing an unborn twin in my head for all those years, I'm still [redacted]"

Mysterious force sickens family in incredible house

A sinister invisible force lurking inside a house is putting its occupants into zombie-like trances and doing strange things in the TV screen and light bulbs.

Scientific experts, called in to investigate, are baffled by the weird goings-on.

"It's a lot more scary than ghosts," Barbara Berkempas told The NEWS. "I've never heard of ghosts doing anyone actual physical harm."

For the past seven years, the only time Clark and Barbara Berkempas were able to escape the endless lifeless traces that overpowered them was when they moved out of their house.

But the longer they stayed in their home the more these "zombie-like feelings" took over.

"I was walking around and not knowing what I was doing," said the 33-year-old housewife from Ashton, Iowa. "I felt totally disinterested and unable to make myself do things that I knew I should be doing — like changing the baby's diapers or doing the laundry."

Each struggler said the shocking discovery of the ages-old[illegible] that burned where they are[illegible]

The Berkempases bought the house in 1973 for $18,000 from the Air Force and moved in 70 miles from Chanute Base, to their 80-acre farm in Ashton.

For the first year and a half, Barbara thought she was going crazy.

She knew something was wrong, but no one believed her.

"I became completely neglectful," she said. "The house was having a bizarre effect on me and my baby. Even the dog became upset."

Then two marching students accepted. Bill discovered that batteries in a plastic container on a kitchen shelf had somehow perished. They were away from any heat source.

Then, the varnish on an antique table in the house had literally melted off.

The family moved out of the house [illegible] and for the next six months they felt better.

The Lastly moved back into the house and called in health experts from the Iowa Department of Health, Iowa State University and a private research company — but no one could explain the phenomenon.

The Berkempas family says they would destroy their house, but they cannot afford to [illegible] and a mortgage for a new one.

Space creature's dazzling visit bewilders farm couple

A visitor from outer space terrified a farm couple — then disappeared in a blinding flash aboard a UFO.

The astounding incident was reported by Gail and Robert Reed who live in rural Waukanda, Okla.

Gail says the sight of the strange encounter she and her husband were jarred awake after both had identical dreams — of a strange man standing over their bed.

They said their farm animals were making an awful racket and when they went outside to investigate they saw a bright light flashing in the sky. Suddenly, they said, there was a brilliant flash that lit up the interior of their home and the light in the sky shot away and vanished.

Police and Air Force officials were unable to explain the UFO.

That document outlines the establishment of such a branch of ESP experts and stresses the need for tight security about the new espionage super-weapon.

Man mistakenly given kid's body

A poor, grief-stricken mother thought she was being handed a bag containing the clothes of her dead baby — but the mob contained the child's dismembered body.

Now Louise Lee is suing for $2 million the undertaker who delivered the horrid mix.

The poor mother says that is small enough compensation for the terrible shock she received when she opened the sack.

Undertaker Alvin Gibbs says he was just delivering the bag given him by the Cleveland morgue. He says he thought it contained only clothing.

Coroner Samuel Gerber says he doesn't know how the mixup happened, but that the mother should have been able to tell the bag was too heavy to just contain baby clothes.

Animals live in terror — so farmers can make $

Many thousands of farm animals are being brutally crammed into tiny cages deprived of food or forced to live in total darkness so farmers can make a bigger profit, says a top animal researcher.

Dr. Michael Fox, respected author of nine books including the two best sellers "Understanding Your Dog" and "Understanding Your Cat," has sought a ban on war against farmers who treat animals like machines.

"We're talking about thousands of animals raised in factory like conditions," said Dr. Fox, director of the prestigious Institute for the Study of Animal Problems.

"Many live pervert of our eggs come from hens kept in cages, four sometimes five in a cage, only 12 inches by 18 inches at the most.

"The average kingdom of a hen is 24 inches. They're crammed in so the noise of all is heavy.

Fox, a former psychology professor at Washington University in St. Louis told The NEWS pitiful cattle raised for veal kept lives of terror which ends when they are mercifully slaughtered at the age of 16 weeks.

"Veal cows are kept in separate pens measuring 22 inches," Fox said, "and they are kept in the total darkness or semi-darkness.

"They should be fed six to eight times a day and the feed they get is deficient so baby cows like them."

"They get so neighborly they watch their mates because it would darken the meat.

"As a result of this improper diet they suffer constant indigestion and diarrhea. And veal is a luxury item. It is not being raised to feed a starving world.

When the couple arrived at the church for their wedding in Portland, Ore., their attendants were there, and so were the 100 invited friends and guests.

But the unemployed man never showed up.

After waiting an hour or so, everybody drifted away. A spokeswoman for Circuit Judge Phillip J. Bush — who promised to marry the couple — said the honeymoon was proceeding in Hawaii.

But a calm John and Jackie said they would quietly enjoy the week they had planned for their honeymoon and wed when the judge got back.

She's the first lady of magic

A FEMALE HOUDINI

Dorothy Dietrich is America's leading lady of magic — the beautiful blonde looks like Dolly Parton and performs stellar dazzling feats like the legendary Harry Houdini.

Dorothy, 40, was the first female magician to duplicate Houdini's incredible escapes — and the first woman to saw a man in half.

"Don't worry," she told game show host Gary Moore, "if the trick doesn't work, I'll send you home in two taxis."

She can escape from chains and shackles and sealed trunks.

She can escape a straitjacket while hanging upside down, suspended in mid-air on a trapeze rope.

For Dorothy, a career in magic was inherited.

"My father was an amateur magician and I had six brothers who thought it was great fun to be one up.

"I would always escape until they'd get more and more rope. Once they locked me in a trunk and used my dad's handcuffs. I picked my way out.

"Whenever I'd escape, I'd jump out of the air and explain to him [brother] I got bored."

Now, Dorothy puts escapes from jail like it rope as well as all kinds of locks.

"Dorothy does it beautifully and with plenty of razzmatazz," says Millionaire Christopher Holmes, president of the Society of American Magicians. "She's a great artist and performer to make an audience."

The New York-based escape artist is capable of confusing and still outwit people and [illegible] by her wits.

She has appeared on [illegible] TV shows that have people [illegible] her performing [illegible] incredible escapes. Here are two of her most dangerous:

Mystery ghost in black haunts 193-year-old plantation house

Chills ran up Maxine Roberts' spine when she finally came face to face with the horrible nun in black — the famed ghost who haunts 193-year-old Destrehan Plantation.

I saw him late in the afternoon at closing time," said Maxine who works at the gift shop at the famous plantation located 16 miles up the Mississippi River from New Orleans.

Maxine and other workers at the historic landmark had heard stories about the ghost from visitors but just shrugged them off with a laugh.

But as Maxine checked to make sure the stately Creole house was empty of visitors she had the feeling that she was not alone.

"I looked out of the window of the gift shop to see if the gates were locked.

"They were so I came across to the office and I saw a man in dark clothes outside the window," she said.

When I got to my desk to get the keys I glanced at the glass again.

"The ghost is for real," says Ann Lafitte, administrator of the plantation, which is located near what is supposed to be the burial plot of the hidden treasure of the pirate Jean Lafitte.

"This isn't a hoax," said Ann, who also had a run in with the black in black. "What we must understand is that all of these things have been seen by people who don't really believe in ghosts.

"People who work here don't generally believe in ghosts, so their sightings really have us puzzled."

Ann said the ghost shortly after it visited Miss Dilling a resident story at the location had left and forgotten a black veil.

"The cat was acting strangely all day a couple of weeks ago," she said.

"She was growling [illegible]

And the cat had vanished down in the store again.

Soapy inmate oobbed to jail 'squeeze out'

Soap might be great for washing a tight ring off a finger but it didn't help prisoner Jim Fulbright slip out of jail.

Fulbright 28 who is serving a six-month sentence on drug charges was found by guards naked, covered with soap and stark in a 12 inch square opening in the ceiling of his cell. Most just cell.

The prisoner had removed the skylight and attempted to squeeze out to freedom.

Guards pulled him free and transferred him to an isolated cell.

Hours later he was again found stuck in the same way. Fulbright was then allowed to shower and placed in a cell with no skylight.

Don't let blackheads ruin your looks.

Tender scenes like this one with Singer Reagan in "Storm Warning," exploded Ronald Reagan's romantic image. In real life he secretly had the girl

By DICK KLEINER

Until he met, wooed and married a shy, young actress named Nancy Davis, Ronald Reagan was a born loser in the game of love.

The narrow, winding road to happiness was filled with heartbreaking pitfalls for the raucous screen star of celluloid.

And it was a road that began back in the usually sunshine days of high school in the small farming community of Dixon, Ill.

There, "Dutch" Reagan met his first love, a sparkling-eyed freshman named Margaret Cleaver, the daughter of a Christian Church minister. He competed for her favors with his best friend and captain-hero of the school's football team, Jack McNeal.

Through high school and into college in nearby Eureka, young Dutch and Margaret were an ordinary pair who remained close even together. Reagan still has fond memories of that early romance and once referred to those days in English when he spent a lot of time [illegible] "sharing ice cream sodas [illegible] a drugstore soda fountain."

That all ended here, when, during the young future president's 4th year, his best pals at a sorority house's luncheon date [illegible] Margaret ran off and married a girl talking English [illegible]

[illegible] the rebound, Reagan, despite his record at college theatre, took up with a pretty young actress whose name apparently has been forgotten by time. And the young actor who always lost on her feet.

The fast-paced, short-lived romance was the first of Reagan's many flings with his leading ladies.

His later involvement with glamorous Beatrice Roach, singer and sometime actress, Jay Hodges was the major stepping-stone to Reagan's sportscaster film career.

It was Jay Hodges who prompted Reagan — then a little-known radio sports announcer — to remove the glasses he always wore and persuaded him into signing with Hollywood agent Bill Meiklejohn.

The agent sent the aspiring actor to Warner Brothers where he was signed to play alongside the striking, beautiful starlet June Travis in "Love Is on the Air."

For the single month young Dutch from the Midwestern farm [illegible] it was whether [illegible] love at first sight.

"June Travis was the love interest in the film," Reagan later wrote in his book. "Where's the Rest of Me?" "It was only natural that I should marry the girl one after hours."

He was so love-struck by the lovely actress that he eagerly accepted the flick's big love [illegible] "I figured in like there was no tomorrow," Reagan wrote.

We will guide you step by step into your own thriving business

• While keeping your present job, You can build a profitable business

A true story by Bob Ferrel

SOME YEARS AGO I was a printer in a small Michigan town.

I drew a pretty fair pay check but it wouldn't stretch far enough to provide the kind of living I wanted for my wife and five children.

That one day I was reading a magazine just as you now are and I saw an ad. It intrigued me. It offered me the steadily growing income I had always hoped for. It said I could have greater security and personal independence ... and that's what I had been wanting.

I was a little skeptical but I said to myself, "by a postage stamp I can find out." So I mailed the coupon in a few days I got a letter with a booklet that gave the whole story. It opened my eyes. I could see why owning my own business was so much easier than I had always thought ... why the day to day guidance of a successful supplier organization would assure my success.

I read the booklet several times. It just seemed too good to be true. I talked it over with my wife. We decided there was the time to make the forward step. There was no reason to keep postponing an intuitive interest.

So, I applied for a Dunlaykan dealership and I was accepted. I started with no job, ran a few ads, sent some mailings, contacted a few stores and told my friends about the exporter services I was now equipped to give them. Evenings and Saturdays. I rendered the service. As the business grew, I added employees.

I found that I didn't have to develop a single idea myself. Every step has been prepared for and field-tested. Hundreds of other men had already proven my methods successful.

It didn't take long to see that I was making three to four times as much per hour in my own business as in my printing job. So, after only seven months with a good following of customers I quit my job to go full time on my own. In the meantime, I had enjoyed all this extra income on top of my salary.

Each day we realized what a service supplier our mailing that anyone would have been ... and how that little ad that started it all for me actually

The steadily growing income brought us many things we could not afford before. My others were so much more productive. I established my home in my own thing. When we moved a day or two off we took it. I worked hard but, if I wanted to be home early or quit at noon, I did.

I became enthusiastic about this business and so appreciative of what it has brought my family that, whenever a man opened a dealership near me, I helped him get a quick start.

The company learned about this and had such new dealers in my section of Michigan spend a day with me. One day the president of Dunlaykan Company asked me how I would like to move to Headquarters and spend my entire time helping dealers to increase their sales and profits.

That was good news to my wife. Since then I have worked a job hundreds of our dealers to their own homes and at regional meetings, conventions and dealer group meetings. And by letter and telephone. All the top officers have taken an interest in each dealer's success.

Incidentally I sold my dealership at a good profit. Many dealers sell their dealerships for several times their cost. If for any reason a dealer wants to sell, we maintain a service to help him sell.

Our job here at headquarters is to show each individual Dunlaykan dealer how to use his own abilities to bring him greatest success. I know hundreds of our dealers on a first name basis. We work together as one happy family. If you become a Dunlaykan dealer, we are as close to you as your telephone or mail box.

It's Easier Than You Think To Build Your Own Business

If you've wanted the opportunity to BE YOUR OWN BOSS ... to become financially independent and have a fast growing income, now TIME CAN. And you work a Nationally Advertised business.

You can stay at your present job while your customers are given. Work details to suit them. Lining up jobs for your customers to do. Our job a day can bring a good starting income and dealers frequently have jobs scheduled weeks ahead.

The 24 page illustrated booklet we'll send you (with no obligation) explains how most of your gross profit becomes clear cut profit. Your income limited only by the number of customers you employ.

You can operate from a shop, office or your home. Equipment is light and portable.

At the start, you may want to render service yourself ... or you can start with full or part time employees. The business is easy to learn ... easy to start. We prefer you have no experience ... we have to "unlearn" old ways.

Dunlaykan is enlarging the worldwide system of individually owned service businesses. If you are reliable, honest and willing to work to become financially independent, we invite you to mail the coupon.

When you receive our illustrated booklet, you will see how you are guided step by step to quickly get customers ... and still more customers from their recommendations.

You have 7 separate services that are rendered "on location" in homes, offices, hotels, theaters, clubs, hotels and institutions.

These are not ordinary services. You have the prestige

per mills, and of Research and Testing Laboratories.

National magazine advertising explains superior merits of your services, builds your customer's confidence and brings job leads to you.

Your headquarters and a Dunlaykan dealer will train you and assist you. He'll reveal his successful proven methods. You have pre-sold newspaper and yellow page ads, recommendations and a full mailing program.

Start Small, Grow Big in this Booming Business

Many men have said to me, "I can't afford to give up my job until I have a sure thing ... a sound business that will provide both security and a better living for my family."

That made sense so we worked out a plan that provides these opportunities. There are now eight Dunlaykan dealerships. We don't experiment. We use tested, proven methods. We have Dunlaykan's backing and 38 years of "know-how."

Does this appeal to you? Don't decide now. Mail the coupon so you'll have the facts to decide wisely. There is no obligation. You'll then know whether this is what you want.

You can start small and grow big.

Our first service, the cure of upholstery and carpets not only cleans it enlivens the fibers ... revives dull colors. Fills pores with new life. There's no harsh machines scrubbing. No soaking. Mild aerosol foam lightly applied lifts out dirt, grease, many unsightly spots like magic. Furnishings are back again in a few hours.

You take the grimy mattress and DUST of furniture and carpets instead of hoping much of it to creep light to smell ... so do scrubbing, steaming, and do-it-yourself methods.

You don't experiment. You use tested, proven methods.

Government figures show service businesses are growing faster than industries and stores. $140 billion yearly potential just in rug and furniture cleaning. Your 8 other services are explained in the free booklet. We'll mail you.

Only $1895 starts you in YOUR OWN business. And we have enough confidence in your success that we finance the balance. The total cash cost is only $1995.

It is surprisingly easy to learn this business. You can decide from the information we will send you whether to apply for a dealership. So, with no obligation whatsoever, mail the coupon TODAY. Do it not NOW as you won't forget to mail it.

Leslie Charleson is nasty on "General Hospital."

Morgan Fairchild is mean on "Flamingo Road."

Mary Crosby is wicked Kristin who shot J.R.

Donna Mills is Abby Ewing on "Knots Landing."

Audra Lindley plays evil Barbara on "One Life to Live."

Five pretty actresses sneak 5 sin as the nastiest women on television

By JOANNE RICHARDS

Everyone knows that J.R. Ewing is the meanest character on TV — but who is the nastiest woman?

Five of television's top actresses are in the running.

● Leslie Charleson who is Monica Quartermaine on "General Hospital" — a powerful, rich and cruel woman.

● Audra Lindley who plays Darlene Lord on "One Life to Live" — a villain about to get control of a state governor by marrying him.

● Donna Mills who is Abby Cunningham on "Knots Landing" — a shady lady with an eye for the other woman's husband.

● Morgan Fairchild who is evil Constance Weldon on "Flamingo Road" — a rich, vile woman who enjoys manipulating people to do her bidding.

● Mary Crosby who plays scheming Kristin Shepherd on "Dallas" and killer Kristin Lundeen — the bitch that shot J.R. and who will also appear in the new season.

Leslie Charleson's role as Monica Quartermaine began with her pairing Steve Hardesty brothers Jeff and Rick Webber on General Hospital. For a while she alternated between the two men in her life, but now she's back at Jeff and Holly using the Quartermaine's business and power to surround her husband.

Audra Lindley's character on "One Life to Live" is Darlene Lord, a member of the hospital's board of directors who owns a newspaper and radio station and is one of the state governors.

She has the power and money to steal anyone's love she chooses.

"It's been interesting to be the bad person and the troublemaker," says Audra.

Donna Mills turns the tide of Abby Cunningham on Knots Landing because she had always been cast to play one of the good women being betrayed by evil people.

Says she does the torrid thing:

"It's much more fun to do dirty things happen than to have things happen to you," says Donna.

Morgan Fairchild says her character, Constance Weldon on Flamingo Road, is so un-

lucky and desperate that she almost accidentally destroys other people. She says Constance doesn't always stop and look at what she is doing to either people — she is too busy looking out for her own skin.

Mary Crosby's Kristin Shepherd on "Dallas" and Audra Lindley learned her acting under the old film ... Bell J.D., Hillwell.

"Actually while in control of my career and everything, and's Mary Jay with Hollywood Brats in Palm Springs ... after starring herself at Knots Landing.

Fess Parker gave up bear hunting to make a killing in real estate

Back in his acting days Fess Parker played Daniel Boone and Davy Crockett and roamed wilderness out of the American wilderness. Now he's earning big bucks out of modern-day real estate.

Since he gave up making films 20 years ago Parker has been wrapping up land in the posh Montecito section of Santa Barbara, Calif., where he lives.

In fact he has been so successful at property and land speculation that he now figures he would be one of the richest ex-movie stars around.

And in a particular interview he candidly admitted he was pure profit motivated in his new role as a real estate tycoon.

Parker, in fact, feels financially substantial enough to be risking $25 million of his cash on a giant commercial venture he is planning to build on his homeacres.

"I'm rich and I feel very fortunate," said a grinning Parker who's shocked by children the world over. "Land and property speculation is a capitalistic way to live ... you know a lot. I've been fortunate in timing and I've had good advice."

Despite his vast wealth Parker, who has lived in Santa Barbara for the past 23 years, denies he has been a success with investing the money he earned from such shows as "Davy Crockett" or the "Daniel Boone" TV series.

"Not true, lucky always lucky," he says. "I made a few bad mistakes in the early days investing, but then Lady Luck came my way. It had nothing to do with being wise."

But, despite his modesty,

Fess Parker at left in this role as frontiersman hero Daniel Boston and, above, as a real-life real estate whiz — a role he says he enjoys more.

Unfortunately it's time [redacted] again for football's Super Boring Bowl

By REX WINSTON

Snuggle up nice and cozy America, the great sleep is about to begin — the boring, dreary, dull, snooze-inducing Super Bowl.

Believe me, football fans, there's nothing super about the Super Bowl.

For some reason, the two teams get together and agree to play their worst game of the year on Super Bowl Sunday. So, both players do everything imaginable to fake field goals.

Head coaches scream to forget what got them to the big game and fall in love with running plays up the middle. And punts, punts, punts.

Somebody wake me when it's over, please.

Not only do the players play dumb, the halftime they put in something like the game always should have been — boring.

This year the shenanigans take on NBC. You remember NBC, don't you? The network nobody watches?

In true NBC form, its announcer boothead, Dick Enberg, and known-it-all Merlin Olsen, to keep the peace, phones. These guys are so bad I begin to actually wish Howard Cosell was doing the game.

Enberg gets all excited about absolutely nothing and Olsen likes to tell boys like a big dumb lineman with the Los Angeles Rams and I suspect he played the dumb gridder without a helmet. The guy is shell shocked.

To rival football fans, the Super Bowl is a bad joke. It's a two-week TV hype job that has us all up to the limit sick of pulls around. And anything that needs to be hyped for two weeks can't be any good, I say.

You want to know what the Super Bowl is really all about? It's parties.

For the fans at the stadium, it's just another football game. But for viewers the Super Bowl means a two-level stuffed viewers — all intestinal guts

Carson Brown, Maryland, all in Kingdom

ers on beer and other snacks.

Viewers die or overdose on over-the-counter pills that they're willing to buy anything just to stay awake for the commercials with the Super Bowl.

It's all a huge bundle — you count the commercials shown during the game. It's to see the jacket jokes during half-time breaks to play and replace worn-out games. Like only three.

So unless you're a fan of beer and other Super commercials take the Sunday off and spend it with the family — there'll still be a Super Day.

IT'S YOUR TURN

About the only programs I watch on TV anymore are on PBS. I'm sick and tired of dog-eating sitcoms where the only places to go bathroom humor and forget more and I'm even more disgusted with the same tired old story lines in shows like "Laverne & Shirley" and "Happy Days." — C.D. Dawson, Tyler

Tonight's episode, "The Madame Lupé Isabel Story," Madame Sagittarius, a con woman, is troubled by the other passengers. But Charley takes pity on her and the two soon develop a very close relationship.

In the late '50s and early '60s, westerns ruled TV and "Wagon Train" was one of the highest rated. It was so popular it was expanded to 90 minutes for an entire season.

Although the show lured the brightest stars in Hollywood, the real star was Ward Bond, the

starred on the wagon master for the first four years of the show (1957-61).

By the time he died and was replaced by John McIntire, the audience was glued to their sets whenever "Wagon Train" aired.

The western lasted four more years after Bond died.

Amazing but true: The U.S. Government owes you and millions like you a lot of money.

Finally it is YOUR turn to cash in!

What you don't know is probably hurting you—right in your wallet.

Sound incredible? It's a fact. The U.S. Government gives away more money than it can even keep track of. Last year millions of dollars went unclaimed because folks like you didn't know how to collect their fair share.

But, there is a problem. You must know what you've got coming—and exactly how to apply for it. Unfortunately, most men and women don't know how to start these checks rolling in from the U.S. Government.

Now—for the first time—there's an easy way. Everything you need to know can be yours in a Confidential Report called: "16 Ways To Get A Check From Uncle Sam!" See list at left.

This report is easy to understand and use. And, even though it can mean a lot of money to you—the cost is just $1 for regular delivery, $2 for First Class service. To get your copy, write the words "16 WAYS" on a piece of paper with your Name, Address & Zip #. Send with your payment to: Franklin Publishing, Dept. GS-41, 185 Cross Street, Fort Lee, N.J. 07024. And, you MUST be 100% satisfied or your money back.

Adventurous pair pedal across the country on a bicycle built for two

By BEE WHITTINGTON

Two incredible young adventurers pedaled 78 days and 4,000 miles of America — on a bicycle built for two.

Pam Harlman Jones, 21, and Rusty Hartman, 25, the trip turned into a love affair — they fell head over heels in love with the beauty of America and discovered kindness they never dreamed existed.

"We planned and saved for this trip for about a year," Rusty told The NEWS. "And all the time we were thinking about the pleasures of biking, but as the days flew by biking became secondary to the closeness we felt to the country.

"There were so many magnificent sights — seeing the Pacific Northwest cropping the horizon.

"Crossing the Continental Divide in Colorado was really something. It was a long climb to the top of the 10,000 foot pass. It took us five days to get there and when we hit the peak we stopped and hugged ourselves — with our water bottles — and posed under those both words of the continent.

Kathy and Dale of Virginia City, Va., drive to San Francisco, Calif., and spread up for their journey with trips through the California wine valleys.

Then they started pedaling their way from the West Coast homeward. At first, the days ended with sore knees and tired legs, but within two weeks, aches and pains were only a memory.

"In Nevada, a family took us in for dinner. Their daughter had seen us while she was on the school bus and she went home and got her dolls and they came out in the rain and waved to us.

"People were like that all over the country — curious about us and so friendly.

In the Rockies temperatures dipped into the 30s and Pam and Kathy suffered thermometers at night by a campfire. But coffee perked on the camp stove this usual warmed them as the mornings to start their journey again.

Pam and Kathy are dietitians, both at Stanford and graduates. Traveling through Las Vegas, they were taken in by complete strangers. Back cards showed them a side of America that changed their views about the country — and themselves.

Now, Kathy is back at work as a waitress, and Pam, who gave up a job as a medical technologist to make the trip, is searching for work.

But already they are planning their next trip — through New England — on a bicycle built for two.

Both teams again, Pam Hartman and Kathy Jones rest both when at the end of their cross-country bike trip.

Hijackers steal $356 in butter

Police are baffled by a daring daylight hijacking and even more puzzled by what the thieves plan to do with their loot — 800 pounds of butter.

The hijackers lured the butter truck to Route 9A in Ardsley, N.Y., in full view of dozens of motorists.

One of the gunmen slipped in beside the truck driver. Ronald Barbati, and ordered both to drive down the road to a spot where the hijackers had parked another truck.

There, the thieves stole, forced the butter onto their truck and made off with the huge load of high-priced spread.

Wall Street Jimmy police believe the crooks have already sold their loot. They are not convinced that it's a case butter than meets the eye.

HERE'S HOW TO STAY YOUNGER LONGER!

If it bothers you that some people your age look and feel younger than you, [redacted] is the time to change your eating and thinking habits

At a party recently, the conversation got around to stories about grandchildren, and I, in turn, started to tell one. A lady in the group interrupted by saying, "You don't look old enough to have grandchildren."

"I have seven," I said, and started to resume my story.

But she interrupted again and

said in a slightly irritated voice, "Oh, come on now. You're stargazing. How old are you?"

"58," I said.

And she shot back, "I don't believe you. How old are you, really?"

This sort of thing has happened to me dozens of times. Usually the conversation continues with several people asking me what I do to look so young and feel so energetic. Invariably someone asks, "Why don't you write a book about it?"

Well, that's just what I've done.

And I believe I have a wealth of valuable experience to share with you. Over the past 20 years I have read hundreds of books on health and nutrition, attended scores of lectures and seminars, conversed at length with important nutritional specialists and conducted extensive research and experiments, using myself as the guinea pig.

'Must' Reading for Everyone

Dr. Philip Wylie, distinguished authority on nutrition, preventive dentistry and arthritis and a noted author and lecturer, says, "Charles Sansone's 'The How to Stay Younger Longer Handbook' is the most comprehensive, compact treasure of information I've seen in 50 years. It's an invaluable one-of-a-kind 'must' book everyone should read."

I have taken all this information and condensed it into a [redacted] jampacked with facts about [redacted] you should eat and what you should avoid. To this I have added some essential youth-sustaining exercises and ideas about how you can and stress.

There are many indispensable foods you should eat to prolong your youth and achieve maximum energy but because they are not suited to the devious advertising and promotion of the profit-conscious 125- billion- dollar- a- year food industry, these highly beneficial foods are not widely used by the general public.

My book is outspoken and pulls no punches. I'm putting my two decades of experience and nutritional research on the line by publishing this book myself [redacted] way I can level with you because I have no financial obligations to any special interest [redacted] or industry.

The truth about the nutritive importance of eating certain foods

continued to the daily newspapers and general-interest [redacted] on the profitability of these publications depends largely upon the enormous advertising budgets of the food, dairy and meat conglomerates.

I consider myself my own best advertisement. I rarely get tired, seldom have to touch as a head cold and feel as full of pep as I did 30 years ago. The priceless information contained in my book, "The How to Stay Younger Longer Handbook" could make YOU a more youthful, energetic and attractive individual.

Toddler miraculously beats the odds [illegible] survives horror drowning

Toddler Scott Menezes miraculously beat the odds when he survived a swimming pool accident that has killed and maimed tens of thousands of other children.

Scott, 2, was under water for more than four minutes when his brother Daniel, 4, courageously dived to the bottom of the pool and dragged him to safety.

Scott, of Miami, Fla., had inserted his arms through a pair of adult-sized swim tins and confidently plunged into the deep end of a friend's pool.

The weight of the large flippers pulled him down mercilessly, and though he struggled, he couldn't free himself.

Ignoring his mother's lung-lady order that pool-bound young Daniel walk a sixty breath and plunged into the water.

He pulled Scott's apparently lifeless body to the pool steps where his stunned mother was anxiously waiting.

"My heart was pounding inside my chest," Mrs. Linda Menezes said. "He was pale-colored and limp as a rag. His eyes were open, but they were lackluster and dark. I thought he was gone, but I couldn't accept it. Scott was too young to die . . . I had to do something.

"Out of desperation I started doing CPR — cardiopulmonary resuscitation — and when my husband arrived from our house three minutes later we both worked on him until the rescue squad arrived.

Scott was rushed to the emergency room at Coral Reef Hospital where his sobering tough colleagues began.

The boy was in and out of a coma, caught pneumonia and went completely blind.

Doctors doomed by medical error by normal again. Brain damage, they told the parents, warning there that Scott might be a human vegetable brain, blind and unable to walk by himself. But they underestimated the lucky little tyke.

Three weeks after the incident, a major breakthrough brought tears of joy to Mrs. Menezes' eyes. "I walked into the hospital room and saw Scott running around some toys looking for his Mickey Mouse doll," she recalled.

"He was starting to get more like himself . . . and miraculously was able to learn up to 40 minutes at a time."

Two days later Scott's sight returned permanently and he is back 100 percent recovered.

"Scott is a fighter with a terrible temper," Mrs. Menezes said. "The doctors told us he'd have to be a fighter if he was going to make it. Now I realize maybe God had a reason for giving him that temper."

Old Bill shakes the branches of his family tree

When Bill Baker got married, he really threw a shabby wrench in the old family tree — for Bill and his granddaughter's husband's mother.

Now everyone has trouble keeping track of who they are.

A mother-in-law has become a step-sister; a brother has become a nephew and a brother-in-law has become an uncle.

Worse (if that were possible), Bill's granddaughter Lynn has found she is now married to her step-uncle — and her own children are her cousins.

Before the wedding bells in Worcestershire, England, it was all so simple.

Widower Bill, 78, had a daughter Edna, Lynn's mom. Lynn and her husband Lester Harvey had two children, and, as you would expect, Lynn's brother Wesley was Lester's brother-in-law. Bill's bride, a widow and named Edna, 68, was Lester's mum and Lynn's mother-in-law.

It was that simple — until Bill and Edna were married.

Now Edna — who is the grandmother of Lynn's children, Craig and Wayne — is also their step-great-grandmother. Great-grandfather Bill also became step-grandfather.

And Bill's daughter Edna, 48, is now her own daughter Lynn's step-sister-in-law. And her two grandchildren, young Craig and Wayne, have also become her nephews.

A confused Lynn, 28, said, "I'm now married to my uncle, and my own kids are my cousins. If you start thinking about it, the combinations can

10 incredible weather disasters

The storms, floods and droughts that changed the world's history

Many times [illegible] on the Earth, the weather has changed how he lived and how he died.

Over the past century the weather has spawned disasters that have left thousands of helpless victims dead, injured and homeless.

Here are 10 of those unpredictable nightmare disasters:

● The greatest flood in all modern times occurred in September and October 1887 on the Hwang Ho River in Northern China. The river — known as "China's Sorrow" — overflowed its 70 foot high levees and covered the surrounding plain in a vast lake of 30,000 square miles. More than 300 villages were swept away, some 6 million people made homeless, and 900,000 killed.

● The world's deadliest hailstorm struck India on April 30, 1888, when hailstones "as large as cricket balls" fell from the clouds over the Moradabad and Bareli districts near Delhi, and killed 246 people. More than 1,000 others were battered by the hailstones and buried under thick drifts of ice when they slowly died of exposure. More than 1,600 cattle, sheep and goats also were killed in the disaster.

● America suffered its worst flood of the spring of 1889, when a stalled weather front soaked the Western Central Pennsylvania mountains near Johnstown with up to 10 inches of rain on Memorial Day.

The next morning, the Conemaugh River overflowed its banks and rose to all time record levels in the city's downtown district.

That afternoon a dam holding a recreational lake on the hills above Johnstown ruptured and torrents of water swept over the bridges, buildings, railroad cars and trees. The debris piled up at a stone bridge in the city and exploded into flames. The death toll in the fire and flood was about 3,000.

● The granddaddy of American blizzards hit on March 13 and 13 1888. The weather forecast had called for "light snow, then clearing." The next morning New York City and its suburbs lay buried under 20 inches of snow. The temperature had plummeted to 15 degrees and 40 mile an hour winds whipped the continuously falling snow into 50 foot drifts on the city's streets.

The blizzard raged on for 36 hours and when the Atlantic coast finally New Yorkers the storm offered some lighter moments... sledding and skiing in the heart of the city. But for others, the blizzard brought misery and death. Food and fuel supplies were in short supply and more than 200 died in the 48 hour period.

● The deadliest lightning bolt flashed from the skies near Richmond Township N.J. and struck the U.S. Naval Ammunition Depot at Lake Denmark on July 10, 1926. It triggered an incredible series of explosions that ended in a holocaust. A blazing red ball of fire shot into the air as shells and powder exploded, destroying every building within 3,700 feet of the strike and killing 14 people.

● On Jan. 31, 1953 a [illegible]-sized Northerly gale roared down the North Sea and created the worst tidal rise in history. At times reaching 160 m.p.h., the wind drove thousands of millions of tons of seawater to the south and raised the level of the North Sea by two feet.

The raging sea punched into the coast of England where 307 people drowned. 32,000 evacuated and 24 new homes destroyed. Along the coast of Holland, the worst flooding was claimed 1,835 victims. 72,000 evacuated, more than 43,000 buried destroyed or damaged, and 625 square miles of land flooded.

● The worst Soviet drought crept into the Sahel of West Africa from the southern edge of the dreaded Sahara Desert in the late 1960s. For six years the vital monsoon rains failed to fall.

The shocking [illegible] in 1972 and 1973 were the most [illegible] to less than half the normal.

More famine hit the region's 30 million inhabitants and more than two [illegible] herds [illegible]

The blizzard of 1888, the granddaddy of all American snowstorms, paralyzed New York City. New Yorkers were still digging out days later as in this photo. Some 200 died in the storm.

1889 it prompted those who had left by return to the stricken area. But they found only dead trees, barren earth and the bleached bones of dead cattle.

● The worst cyclone struck East Pakistan (now Bangladesh) on Nov. 13 to 1970. More than 500,000 people drowned and thousands of others died from disease and starvation.

● The great tornado that swept across the Mississippi Valley on March 18 1925 holds most of the records for property damage, deaths and injuries.

The killer tornado swept a 219 mile track through Missouri, southern Illinois and southwest Indiana.

The rampage lasted [illegible] minutes on the ground for an amazing 3½ hours and traveled an incredible 69 mph. In the [illegible] way 1,123 people lost their lives, more than 2,000 more were injured.

● The longest-lasting weather-related disaster in America ravaged the Great Plains from 1932 to 1940. Known as the Dust Bowl Days, its dread "black blizzards" destroyed the crops and farmlands throughout Texas, Oklahoma, Kansas, Colorado and New Mexico. The misery of the Dust Bowl days was given the British area was portrayed in John Steinbeck's Pulitzer prize

Childhood lovers finally wed after 50 years apart

Torn apart by more than half a century, childhood sweethearts Caroline Saint and Charles Palmer finally became husband and wife in the very city in which they once had their brief romance.

And things in later years may both started after years raised families and lived separate lives, fates tore them apart, they kept locked in their hearts the glowing memory of a love they knew would never die.

Today, Charles is 71 and Caroline is 69. But their troubled home in Miami, Fla., glows in the warmth of their deep affection. The happy couple recalled their bittersweet love tale for The NEWS.

"The hurricane of 1926 wiped out everything we had and when the Depression came things really got tough," Charles explained. "So my family moved to Connecticut where we had relatives. We wrote to each other almost every day but I got in the point where we couldn't even afford to buy a three cent stamp."

When the letters stopped, it seemed their long-distance romance did as well. Then one day, Caroline heard Charles had married and in her anguish their childhood love had ended.

So Caroline made perfect sense of the memories of their happier times — a promised rose and a gold and diamond engagement ring — and in time, she met and married Julius Saint who impressed a small group every night on Miami's SW Eighth Street.

Charles had learned from friends that Caroline was still in Miami. So while visiting friends in Fort Lauderdale, he stopped by.

"It was a very short visit, we didn't have very much time," Charles recalled for The NEWS. "We only had an hour. Then it was over. It was very hard to part again."

As the years sped by, Julius Saint died. Charles became a widower in 1972. He had four children and lost Joan his only daughter Caroline — named after his first love — died.

Last April 8, Caroline received a birthday card from Charles and she was deeply moved that he had remembered the date all those years.

Weeks later, she received a tape recording Charles had made. He was playing the organ and the song he had recorded was "Caroline Morn" — their song which they were overjoyed more than 50 years before.

"Well, we talked and decided to see each other," Caroline told The NEWS.

Six months later, they were married.

Today they live in Miami, the city where they first met and fell in love so many years ago.

Forcing kids into sports is called type of 'child abuse'

Some parents abuse their children by beating them — others by pushing them to succeed in sports to the point of serious injury.

Dr Edwin B. Gaine at Henry Ford Hospital in Detroit calls it "socially approved athletic child abuse."

And Gaine has reported that "swimmer's shoulder," a condition so severe it requires surgery, is on the increase among teenagers who are team swimmers.

Dr. Gaine, who studied swimmers, guessed they had strained each shoulder about 15 million times during a normal swimming season.

Another bone specialist, Dr Richard M. Hall of Plainfield, N.J., condemned the grueling, taxing programs for adolescents as a "frightful child-abuse syndrome." Dr Hall said: "Apparently many teenagers are developing a significant weakness of the shoulder that may require surgery.

"And we don't know what the long-term results will be."

Shoveling snow is health hazard

Shoveling snow may be hazardous to your health.

In fact, a way to classify, says Dr Barry A. Franklin of Royal Oak University School of Medicine in New York.

If you live in areas where winter weather is severe, here are some tips offered by Dr Franklin for those who have to clear their walks or driveways.

• Elderly persons or those with heart disease or high blood pressure should avoid shoveling snow.

• Those over 40 should take short rest periods during their shoveling stint.

• Warm up by exercising before shoveling.

• Lift shallow loads and use a short shovel with a small scoop.

• Wear a cold-weather mask or scarf to avoid inhaling cold air or exposing the face and neck to it.

• Avoid big meals and coffee, tea and cola before and after shoveling.

• Avoid alcohol or tobacco before and after shoveling.

• Avoid overdressing. Dressing too warmly increases body temperature abnormally and puts a bigger strain on the heart.

Test-tube baby craze hits England

The test-tube baby business is moving into high gear in England the nation that produced the world's first such infant two years ago.

Drs Patrick C. Steptoe and Robert G. Edwards, the team that succeeded in bringing Louise Brown into the world, are setting up a private fertility clinic near Cambridge and will try to duplicate the test tube fertilization feats next year.

And Dr. David H. Smith of Royal Free Hospital in London is performing five test tube fertilization attempts every week. He reports only one pregnancy in 10 months of trying however — and that pregnancy ended in a miscarriage seven weeks after conception.

Aspirin hurts unborn babies

Premature babies whose mothers take aspirin within a week before birth may enter into the world with brains that bleed.

Dr Carol N. Rumack of the University of Colorado studies that indicate it is not safe to take aspirin during the last three months of pregnancy.

Although the researchers do not know just why the babies bleed, Dr. Rumack reported hemorrhaging in 10 of 13 premature babies whose mothers took aspirin.

Racquet games injure eyes

If you play racquetball, wear sports glasses or safety guard.

Such protection will help prevent the growing number of eye injuries among America's seven million racquetball players, according to Dr. Marcus F. Blasengame of the Greater Baltimore Medical Center.

Dr. Blasengame reported a rash of eye injuries by racquetball players. Some were caused when a player was hit in the eye by the ball. But most were gashes or bruises caused by players who hit themselves with their own racquets.

How to get rich

How can you get rich quick right? Make a hit record . . . a killing on the stock market . . . or invent a gadget that the kids bang?

For most of us, these are just dreams. But have you ever stopped to think that there is a way to get rich—possibly only one you may? Most fortunes, as you know, are made by people who own their own business.

Perhaps you've thought of starting a small business of your own . . . a dress shop, delicatessen, or maybe a service business. Trouble is, you need $10,000 to $15,000 to get started and even then it's a gamble—with slim chance of ever making really big money.

But there is one business which could make you rich almost overnight! And the beauty of it is, you can start on a shoestring during your spare time, even while holding your regular job.

Cash by Mail

The business is Mail Order—and it's fabulous! Come up with a "hot" new item . . . and WHAM!

It catches like a bolt of lightning!

Suddenly you are deluged with rush orders from all over the country . . . MORE MONEY than you could ever dream possible!

Like the Vermont dealer who sent his ad to Sports Afield Magazine. He pulled 21,000 orders and A HALF MILLION DOLLARS IN CASH!

There's no other business where you can make a fortune so quickly!

A beginner from Newark, N.J. ran his first small ad in Grass Roots—offering an auto starter sale. Business Week reported that he netted himself $8,000 in sales. By the end of his first year in Mail Order he had passed over $100,000!

Another beginner—a lawyer from the Midwest sold an idea by mail to Fabulous. Sportsy Outdoor Magazine reveals "he made $10,000 the first three months!"

Proof

It's a fascinating business! Running ads in newspapers and magazines . . . mailing gift catalogs . . . getting cash orders in your mail—usually in dollar bills.

There are other business where you can start on a shoestring and pyramid your profits—without investing a penny! One husband and wife mail order team took in $40,000 selling coin books. They obtained FREE ads in unlimited numbers . . . didn't invest a cent in merchandise, and even got the supplier to ship all orders for them!

These exceptional cases represent just a few of the hundreds of beginners who have made a "killing" at mail order. This is absolute proof of what can be done and what is being done — by beginners just like yourself!

Why not you?

Mail order is the fastest growing, most profitable business in America! And now, with more people earning more money than ever before, the opportunities are greater . . . the population explosion . . . and the expanding overseas market . . . are you on the verge of the BIGGEST BOOM in Mail Order history?

Now, with the help and backing of Mail Order Associates, Inc., of Short Hills, N.J., you can follow the same proven steps to Mail Order success using the "secret" of financial leverage!

The Secret

The secret of getting rich in Mail Order has no financial leverage. It's a long-known, almost magic method—using other people's capital to make money for you!

You can get thousands of dollars worth of advertising in big national magazines—without investing your own money! And you don't have to write a single ad. Typical and proven ads are prepared for you by experts. Between the profits from your first successful ad—to get more, larger ads, and the profits begin to snowball! It's like building a chain of stores . . . each one does quite much money in your pocket.

You may get hundreds of envelopes which offer hundreds of dollars worth of free, useful gifts! But you don't

The thrill of opening money to your mail is one you'll never forget!

invest one cent of your own money in merchandise! Your catalogs are printed with your name and address, so all orders come to you. Everything is "drop-shipped" for you, and there's up to 120 days to get the cash pouring in before the orders are shipped to your customers!

Report orders direct from their big catalogs, while being you a ready supply for the rest of your life!

Yes, Mail Order is the fastest growing, most profitable business in America! Army expert says his astonishing diet has helped many beat cancer

By DEE WHITTINGTON

A former top Army research scientist has developed an incredibly simple diet to beat certain types of cancer.

Physiologist Eric Anderson, former chief of the Army's germ warfare project at Pine Bluff, Ark., based his diet on the body's own ability to fight disease with the right combination of foods and chemicals.

Now, hundreds of cancer and arthritis sufferers have followed Anderson's diet of pure foods and the results have been astounding.

"My method is really quite simple," says Anderson, who has received over 3,000 requests from all over the country for the amazing diet.

"What we're doing is providing foods that don't interfere with the body's ability to make its own cancer fighting drugs.

"I'm a nutritionist, not a doctor and I'm not practicing medicine. I have nothing to sell. This pill started by accident and all I know is that I am getting letters from people all over who say it works."

All that Anderson, 61, of Bessemer, Mont., provides is an instructions sheet.

His diet forbids coffee, tea, cola or other foods containing caffeine. It also outlaws red meat, certain dark green vegetables, cabbage, relish, onions and spices.

Just three glasses of chicken broth which ish or barley are allowed per day along with six ounces fruit or the dieter wants. Approved vegetables include lettuce, corn, potatoes, beets and carrots.

One tablespoon of brewer's yeast is required every day and 4 teaspoons of Certo, the consistent word in cooking, must be taken before every meal. Up to eight Acidophin capsules should be taken every day.

One of Anderson's patients was a housewife dying of a rare disease that left her too weak to walk or lift her arms. Every breath was a sigh of excruciating pain. Two weeks after she began the diet, she was back on her feet — and a year and a half later, Donna Brown, 41, of Bessemer, Mont., is still alive — to the astonishment of doctors.

Joe Donaghy, 39, was losing his battle against malignant melanoma, a cancerous growth that kills 80 percent of its victims. It had spread from his chest to under his arm.

"I was so desperate I would have eaten sand," Joe Donaghy told The NEWS. "I tried the diet and within two months a biopsy showed [illegible] was a dead cell in the [illegible] my life."

[illegible] Caroline McGuire was [illegible] by thrombosis at [illegible] she made [illegible] a friend with her guarded hands. She recovered completely after two weeks on the diet, and today Mrs. McGuire, of Three Rivers, Mich., can do her daily work — including typing and sewing.

"I had suffered so much for four years. I didn't think I'd ever be able to do those things again," she said. "My hands, my wrists, my knuckles were all swollen. Now, I am like a new person."

Anderson, the food expert who created the diet, was a nutritionist with the Department of Agriculture before becoming head of the Army's germ warfare project at Pine Bluff, Ark.

It was after he discovered the diet when he advised a colleague with prostate problems to try his basic health diet and the man was cleared — the diet made the cancer lesions on his head disappear.

Joe Donaghy told The NEWS that the simple diet saved his life.

"I had surgery on May, 1978," he said, and the cancer had already spread to my lymph glands. I had lost 30 pounds and I was in a terrible mental depression.

"I was desperate and the doctors over at Georgetown University Medical Center, told me there was nothing to do.

"Wait and see what happens," they told me.

"I loved the diet at first, but I stuck to it for three years, and now eight years have gone by and I have no symptoms of cancer at all."

Donna Brown says the diet saved her life.

"A year and a half ago, I was dying," she said. "I had lupus, a rare disease that attacks the connective tissue and destroys muscles, tendons and ligaments.

"I was so weak I couldn't even care for myself anymore, let alone my kids or husband.

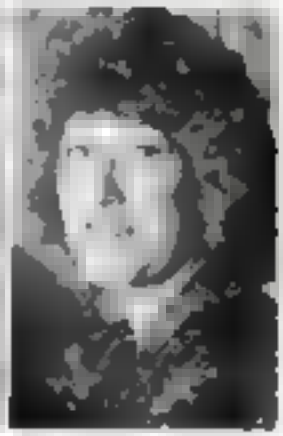
"The doctors said there was nothing they could do but give me cortisone.

"Both my lungs were filled with fluid and I could hardly breathe.

"My parents had heard of Eric's diet and I tried it. Four days after I was off cortisone and on the diet, my lungs cleared up and I felt remarkably better.

"I still have lupus, but I'm much stronger — and I'm alive. If it hadn't been for Eric's diet, I'm sure I would be dead by now."

Joe Donaghy — either a miracle or the diet saved him.



Donna Brown — she was told [illegible] to die of cancer.

Diet expert Eric Anderson based his diet on the body's ability to fight disease when fueled with the right kinds of food.

How do I win back my boyfriend after breaking his heart?

Dear Baba: I'm 16 and in love with a 17-year-old guy. We have gone together for several months, but I broke it off three times.

He really cared about me but I was too ready to get serious then. I realize what a great person he is and how much I love and need him.

I hurt him badly when we dated and now he is afraid that I will do it again if we start over. I've tried everything I know to show him that I've changed and I won't hurt him or anything.

I really want him back. Can you give me some advice on how to convince him that I've changed?

Heartbroken
Starkville, Miss.

Dear Heartbroken: Keep showing him that you love him. Don't beg or humble yourself, but do show your love and good sense by talking honestly and logically with him about how you feel. If he's worth it to be, he will be back.

Shaving my legs is a nightmare

Dear Baba: A few years ago, I started shaving my pretty legs to make them look nicer.

Within a short time, I discovered that the hair was growing back thicker and darker and I became a terrible problem. I had to shave more often and the shaving began to leave red spots.

Now I am hooked and need to shave daily to keep them having hairy legs.

As new owners of hairy legs, I have red blotches. Is there anything I can do to solve this problem? Please tell me.

Unhappy Legs
Cincinnati, Ohio

Dear Legs: There are many ways to get rid of the unwanted hair on your legs without causing red spots.

One way is the use of a chemical which will remove the hair. Another is the application of wax to pull the hairs, which is of course but sometimes painful.

A handy way as shown previously, the red spots is to use an electric razor.

There are also permanent hair removal methods done electronically, but quite expensive.

If you want normal legs, try a new method and follow up with a conditioning cream or lotion and work in toilet oil.

I hope this helps you.

'Fast' girls get dates but I'll get a hubby

Dear Baba: This is in reply to the girl who signed herself Very Shy and is an embarrassed bikini-type overnight friends wants him at her.

I am a 16-year-old girl. Lively outgoing and popular. I am a virgin and I'm proud of it. I know a few girls who are not virgins but they stand at the boys in school know them too.

These girls get the dates right now but I'll get the husband in the end.

One more thing. I don't care what my parents think — they are my friends and I love me very much. Listen to your parents, they're the best friends you'll ever have.

Very happy,
Cincinnati, Ohio

Dear Happy: Thank you for sharing your thoughts. There seems to be an unfair emphasis among young girls about sex.

It's a pleasure to hear from a girl whose head is firmly on her shoulders.

Your enthusiasm rubbed off on me.

I must confess — I stole $56

Dear Baba: Years ago, when I was poor, I stole $56 from my employer who trusted me. He never found out and we have kept in touch over the years.

I am a successful housing contractor now, and I want to return the money with interest but I don't want to destroy the friendship I have with my old boss.

How can I make my confession, pay back the money, and not disappoint an old friend?

In the Chips,
La Crosse, Wis.

Dear Chips: You want it all, don't you? Unfortunately, that may not be possible. I agree that you should pay back the money with interest, but I feel you should accept your original debt in the deal.

There is a chance that you can solve some of your relationship. If you honestly tell him why you did it in the first place.

One of two things will probably happen. Either your boss will have deep understanding of human error and forgive you, or he will feel that you can never again be trusted as a friend.

In any event, giving it back is the right thing to do.

My little brother is very ill — why does he have to die?

Dear Baba: I'm 11 years old and I want to ask you about my brother. He name is Kenny — he's 8 years old. He's very sick and my mom said that God wants him very much. I asked my mom and dad why Kenny is going to die and they told me he has a blood disease that makes him very sick.

Kenny is my best friend. I love him. He's small and weak but he smile is big. Kenny reminds me how we ought when we talk about things. He make me lots of questions.

He thinks that he will get bad [illegible] when I try to tell him Kenny talks about getting well.

Why do people have to die? Will Kenny really be with Jesus when he dies? Mom said he would sometimes I see Dad crying but

Tim
Sacramento, Calif.

Dear Tim: Your brother Kenny must be one of God's favorite people — that's why God wants him. Sometimes God decides to take those he loves the most back to His side.

People die when they have finished their work here on Earth, as evidently Kenny is ready to go to heaven to be with Jesus now. It's wonderful that your brother is your best friend.

Kenny is working you a lot about him. I know you love him. After Kenny leaves, you must remember Mom and Dad will need your help for awhile, so be as strong as you can.

Except for Victoria Principal who blames the show for . . .

Dallas stars' marriages unspoiled by TV success

By ELLEN ROBERTSON

Dallas' leading lady Victoria Principal has blamed the top-rated TV show for shattering her marriage of only 11 months — but the show's other top stars are still rock-solid with their longtime mates.

The dark-haired beauty has claimed viewers want the show's actress that her stepparent ... marriage to handsome actor Christopher Skinner was on the rocks.

Even more shocking were her charges that the pressures of filming the world's most famous TV show had strained her relationship with her hubby, who is 10 years younger than her 31 years.

Victoria and her husband, actor Christopher Skinner, have split after only 11 months together. The show's co-stars, the rest

Larry Hagman — who plays the show's evil and scheming J.R. — has been happily married to his wife Maj for 25 years.

Jim Davis — who is Jock Ewing, leader of the Dallas family, has been together 31 years — has a strong wife, Blanche

Barbara Bel Geddes, who plays matriarch Miss Ellie, has been married to her husband for 35 years

Handsome Patrick Duffy has been married to his wife Carolyn for eight years

Victoria said her marriage to Skinner was finding it difficult to make it in Hollywood.

While Victoria was at being successful he was still struggling.

Indeed Skinner was not alone in his career. And Victoria confessed that she might not like playing second fiddle if her husband hit the big time.

"I have a very large ego and I guess it's the dominant small in the relationship," she admitted.

In the case of Dallas, Duffy and Davis' close-knit families revolve around their careers so there were no conflicts.

When asked how he kept his marriage together despite the pressures of work and constant trips to promote the show, Hagman explained:

"I always have my wife with me wherever I go . . .

because I like to be that a woman who thinks I'm getting any girls but all attention — I attached attention."

And the actress she liked best with them females that bring more. Her life was filled with flings with the likes of pop footballer Lance Mentzel, tycoon Bernie Cornfeld and singing legend Frank Sinatra.

When she left Dallas the Dallas part she was replaced because she had outgrown and injury.

Victoria wasn't planning on marriage or motherhood at all when she fell instantly in love with Skinner when he played a small role on a Dallas episode.

"I didn't feel there was anything lacking in my life until I met him," she said. "Suddenly I discovered that something was lacking — and it was him."

Their dating period was brief and passionate and sinkers. He was married and divorced. And while her parents psychoanalyzed Skinner was finding it difficult to make it in Hollywood.

ASTRO-MATCH UPS

by Sally Pickling

Aries male — Virgo female

Well now! The odds here are about as bad as they can get. Miss Tilly is Mr. Sloppyville. While she's trying to keep everything in order, he is making a mess. While she is scouring the sale for bargains, he is splurging.

Between the two of them this combination could resemble Pearl Harbor one moment and a house fraus a very short time.

Max Pickling

He will probably have difficulty coping with her independence, and his Aries "me me" manner may crack quite suddenly.

For the Aries man this Match Up is not advised mainly because the barbers bar nights and does endless research. He goes to fight back the stronger sex.

The self-composite here him not will never apologize because she believes nothing is ever her fault.

She will find him a fair companion and a careful husband because he won't waste her resources and will be generous and sincere.

She will not want to have children right away, if at all, and he may want a large family. He will spoil the kids rotten and she will make him mad. He usually tries to smooth all the problems. Since she is hesitant to handle big problems he might be allowed some leeway here, especially where a fast decision must be made.

This Match Up might make the grade if his unbelievable patience can level out her impetuous highs and lows, if he doesn't push too hard and she doesn't discover him.

The two of them might at last be ready to tie the knot after they give the marriage a chance. Maybe a lucky star out of his sleeve (yes, Aries shows one)?

For an extensive three page analysis of any relationship just send one $2.00 remittance with birthdate of each, a stamped, self-addressed envelope to Match Ups, the Astrologer Dr. Eugene Sherb, Calif. 90000. A more detailed 4-page analysis can all the heavings is available for $5.

Dr. James K. Van Fleet Claims:

YOUR ACHES AND PAINS DISAPPEAR WITH AMAZING CHV*

Dear Friend:

Here, revealed for the first time ever, is the amazing story behind the miracle health secret, CHV! What you are about to hear may at first seem astounding, incredible — but says noted doctor James Van Fleet,

"I have seen these fantastic results demonstrated time and again in my practice."

Pulled from a 30 year catalogue of extraordinary case histories is the private files are just a few examples of the astounding results achieved:

• Fought Against • Sadly Arrested • Crippling Arthritis Mended Unbelievably Prairie Misery Swiftly Dissolved • "Incurable" Psoriasis Spontaneously Cured • Hearts Rehabilitated • Parents-Can "Do Everything after Heart Attack" • 40 Cases of Pain Relieved • Suffering Stopped and Man Becomes Astounding 40 years Rejuvenated

Perhaps you're thinking that miracle healing CHV must be very rare and expensive — sold only by the wealthy people who designed Egyptian Pyramids.

Not at all, says Dr. Van Fleet, you can find CHV in almost any health available to you — probably passed by CHV doctor of them on the shelves of your local neighborhood health food store — and probably because of the fantastic healing potential for example using a CHV tea and cigarettes, as well.

BEGIN HEALING ALREADY! Even if confined to a wheelchair because of rheumatoid arthritis, get up after through and stride down the pathway for being no disease had gained. And literally a short time on CHV can amplify and astounding pain-free power "come back to work, to lead never been realized before!

CURES YOUR MAJOR HEALTH PROBLEMS — NATURALLY!

The CHV tea and tablets you have heard about Maple Extraction, states Dr. Van Fleet, an also health secret is to avoid that by supplying prescribing large patients — sometimes up to ten times the usual amount — for common and complete nourishment the fuller it helped the doctor at one of Dr. Van Fleet's patients.

A YOUNG GRADUATE MEDICINE! Recently and to find Mayo, an elderly diabetic patient was brought to Dr. Van Fleet's office by his daughter. Already 7 Doctors explained that because the doctor's daily shots had not lasted after nine weeks in the hospital, his doctor wanted to amputate a leg above the ankle! Brenda's Hunter and attendants and spread behind top of the hospital! Dr. Van Fleet then prescribed the elderly woman and recommended that she try CHV every day. Two years, the latter finished completely, and she escaped the operation surgery that would have crippled her for the rest of her life!

BETTER HEALTH WITHOUT DANGER

Naturally, if you desire protection against that you need, do not hesitate to take it. However, Dr. Van Fleet has found that many persons do not need prescription drugs to obtain their good health and maintain their vitality. In fact, he states that drugs destroy the nutrition within the body, and often cause undesirable side effects that can be questionable!

On the other hand, the miracle remedy is not a dangerous drug — CHV cannot hurt you, states Dr. Van Fleet, even *[illegible]*

With CHV you can realize your heart conditions rapidly, says Dr. Van Fleet. In fact CHV can be your best insurance against a heart attack, stroke, and heart-related difficulties. He also states that after a heart attack the drugging normally lessens the chance of a second or a fatal attack! Paul's case is a good example.

PAUL'S HEART RESTORED! Paul had been left a cardiac cripple after that devastating heart attack at years ago. He could be time at all or a wheelchair, on the slightest exertion brought on chest pains and breathing difficulty! Only a week after CHV treatments had begun, Paul began to show improvement. Now he can do everything — he mows daily jogs on and from the office, and plays 18 holes of golf every Thursday!

Additionally, the usual increase for Angina Pectoris among the users, was a 3 out of 4 ratio, according to Dr. Van Fleet. In a short time after the usual onset of the attack which is the fact that the users doesn't have enough oxygen. CHV can supply the oxygen and not help the heart and in many other ways, says Dr. Van Fleet. See how the awesome miracle secret works:

CLEANS CIRCULATORY SYSTEM: Cleans 6, 11 and additional to a combination with Angelic Proteins. Stop a short concentration must, and 2000 as it was believed, as the arteries with a sharp knife that was being removed daily! Slowly after using the miracle healing secret, CHV, the plaque stopped and a check actually after that to get rid of the additional CHV. Within two short weeks, pains were the worst pains!

OTHERS TESTIFY TO CHV HEALING POWER

GIANT HOROSCOPE

By Suzy Sayer

ARIES
March 21-April 19

Much to your dismay, Aries, you may have to befriend a talented old Libra who really wants her own way-ric for your tastes. You can't be sure if this person is just acting or really in love.

But whatever the circumstances, be it at work or through family connections, you really don't like this person and you could find a graceful way of saying so and going away from this unpleasant circumstance.

In spending weeks you may be surprised to find this angry person really does have some intelligence, do have a kind nature. As Saturn goes retrograde this week you may find that you have plenty of standing up to do with bosses.

TAURUS
April 20-May 20

Although a new love is on to get your temper up, Taurus, you may find yourself getting angry this week over some seemingly commonplace details.

A certain virgo may just raise your patience limit, and you'll find yourself letting loose with some angry words. It's time to clear the air, so don't worry about it.

The sun goes into Aquarius this week and this will bring some interesting new ideas. You prefer to work alone at this to stay at early out projects and can happily keep yourself busy through most of the week. The early part of the week is a good time to rendezvous with friends. Social life is active now and group activities.

GEMINI
May 21-June 20

Problems may not have arrived at your doorstep yet, but early this week you'll get an inkling of what is to come.

The love of five planets that will all be retrograde by April, makes its mark this week, bringing some minor discomforts. You may have to meet-like some or money for something you had not realized would be a problem.

Gemini can will rather out of this whole five-month onslaught of retrograde planets reading like a rose. You're better armed than most are now as the year, both conversation and financially. You don't take anything for granted now.

The planets, Jupiter, Saturn, Uranus, Neptune and Pluto will do their "thing" mostly in April.

CANCER
June 21-July 22

Cancer natives will do well through some trying times ahead in the areas of business and finance. There is a tendency for other signs to find creative outlets but you may not be pulled so freely in this direction.

You are in the process of building important business connections and have already met some important people. But you would be wise, dear Crab, to await other points because this is a year that is marked for creative expression and innovative ideas.

In the next two weeks you may find something to your liking. You can be very helpful to others this week with knowledge and advice to share that proves intellect.

LEO
July 23-August 22

Although the planet Saturn will go retrograde this week, Leo it's nothing to get all worked about. Actually you should enjoy the added upsets it brings because you've been experiencing so much calm and quiet these last few weeks. The early part of the week will bring quiet days but the midweek will be a bit more interesting.

Arguments never particularly on the jet-lazy but when you thought you had them in the palm of your hand last week! But these are more likely to be "creative arguments" that stimulate interest.

Both exciting things can be accomplished in group activities. Any work in film or theater may the next several months will be great.

VIRGO
August 23-September 22

Another good week for Virgo. It may be something like ending the month two weeks — but much of a good thing.

At least there are a few highlights this week to make your stomach flutter a few times you'll encounter problems. But you're tired of the old life and ready for some rougher excitement. There aren't going to be any great disturbances to upset the apple cart, but you should encounter some delays ahead.

You may find someone at work has uncovered an interesting piece of information that will help you have some more profits. Money like is unexpected, but there may be disputes over where it is received.

LIBRA
September 23-October 22

Librans are always ready for action but there's not much action to be had. You want to argue, debate, surrender some passionate wish where you can show things out.

Maybe Pisces will humor you a little and play devil's advocate. Early week days are moody, easy-going days. Mid-week will be slightly frantic. You should engage in some good hearty exercise so you can get your circulation pumping.

Things have been relatively simple and of all signs, Librans need some conflict to help them thrive creatively and productively. You may get fussy about details this week with the moon in Virgo. Next week will offer more action.

SCORPIO
October 23-November 21

You don't need outside conflict that some signs seem to be starting next, tonight. You constantly manage to stir up your own.

Little things with irritate you this week and you'll complain loudly to anyone who'll listen about unimportant irritants. You'll even introduce some wild ideas to keep them listening. To be sure, some are close to the truth. It's a good week but a bit more interesting than the last few weeks. Mid-week days are good variable days with the moon in Leo. You're in control here of certain situations as your dominating personality takes charge.

Female Scorpios should watch their weight. Males should beware of public transportation.

SAGITTARIUS
November 22-December 21

You can be an inspiration to many now, dear Sagittarius, especially children. Like Scorpio, you can rely on your own sense of uniqueness, and enjoy an endless stream of potential days.

But, beneath it all you know you still have a few problems to work out.

This week is as good as the last, and you continue your private pursuits around the house and, where no one is watching, at the office. You may be working at ways to triple profits at work, but you don't want the boss to know about your ambitious project yet.

Any writing done now and in the next two months can be persuasive and powerful.

CAPRICORN
December 22-January 19

Capricorns may act a bit eccentric this week. With the sun passing out of Capricorn and going into Aquarius, you'll be feeling a bit strange. It's just a passing phase, though. Just relax and you'll be back to normal.

This is one week you find you are not in the mood to socialize much. But there are certain persons you will like to be around. Librans and Geminis make just the right number of friends for you now. Gemini is in Capricorn all week, making romance a solid base of understanding.

You may not be overly flirtatious but you can do up the town in style. There is a quiet charm you have that a very appealing one to the opposite sex.

AQUARIUS
January 20-February 18

Aquarius is a good week for you. The sun moves into Aquarius. Since Mercury is already in your sign, most everything is to your liking.

The pace picks up a bit and you enjoy a surge of ambition. You may also find bursts of creativity, and may make your schedule more active than need be simply because of a desire to move out of these tranquil weeks and into more communal activity. Early in the week will be a sensational time for you with the moon in Cancer. Commitments are strong with loved ones and family. Toward the end of the week you may get some new insights into the people around you. You are still learning and learning.

PISCES
February 19-March 20

Pisces may decide on a short trip this week. You should be careful of indulging in too many fine foods though. The week looks good for you and short excursions can bring you some new ideas for projects and give you some much needed motivation.

Saturn goes retrograde and will add a little interest to your days. Creative conflicts will give more inspiration for work in artistic endeavors and for work in the creative and business. You excel by following through on your ideas.

There may be a certain lack of self-discipline. There is also an element of beauty this week and you'll like shopping for new clothes for yourself and your family.

This week's birthday: Cary Grant — January 18, 1904

Cary Grant, that movie lover of stage and film, will be 77 this week. Cary is a Capricorn with strong influences from planets in Aquarius and Sagittarius. With his sun and Mercury in Capricorn, Cary is a conscious type with a great reserve of strength.

Cary has a deep love for travel but he may experience some unsettling changes in his because of that.

Venus in Sagittarius marks him for a large degree of independence, which he has been accustomed to from an early age. He has unorthodox views of life which may clash against his more practical Capricorn nature at times.

Cub takes a stroll and finds a home

Nancy the lion took a stroll through the streets of New York and got a new home as a result. The six-month-old cub had apparently been abandoned by its owner. Nancy was first taken to the American Society for the Prevention of Cruelty to Animals shelter where he showed affinity. But he finally found a permanent home with Frank Terry, owner of a private animal park in suburban New Jersey. Terry plays with Nancy (right photo).

A healthy, happy ripe old age is in store for everyone soon

Soon everyone will live to a ripe old age.

That's the word from experts on aging who believe that we are headed toward the day when the average life expectancy will be about 85 and very few people will die of disease in youth or middle age.

One authority on the subject, Dr. James F. Fries of Stanford University says that his calculations show that the generally attainable life span for humans is approximately 85.

In an article in the prestigious New England Journal of Medicine, he says that as the average, new group — white women — now live to within seven years of the goal, or to around 78. And, he says, if the violent premature deaths were eliminated from the statistics, the normal average life span for that group would be 81.

And, as science makes great strides in the control and elimination of disease, people have the bright prospect of growing old while enjoying good health right up to the end, give or take a few years.

Psychic leads searchers to body of missing hiker — from 1,000 miles away

A tape recording made by a top psychic incredibly led searchers to the shattered body of a young hiker missing in a mountain wilderness.

A rescue team found the body of 19-year-old Karol Sams sprawled at the bottom of a 150-foot cliff in the treacherous North Cascade mountains of Washington, only a half-mile from the U.S.-Canadian border.

It was the exact spot where California psychic Katherine Rhea — who was many miles 1,000 miles away — said the missing woman would be found.

"I knew the girl had to be high enough to have an echo or a boulder rolling," Miss Rhea told The NEWS. "I just put myself into her head and went up the mountain with her.

"When she came to an impasse I knew that was the danger area. It was a landslide area and that's where I told the searchers to look.

"But I knew she'd be found dead. That's what I told searchers . . . 'the girl is dead.'"

It was amazing," deputy sheriff Doug Gill told The NEWS. "Miss Rhea perfectly described the terrain and the weather, even the types of animals in the area. She also said Miss Sams had suffered serious back and leg injuries in the fall.

"The autopsy report revealed she had died of internal injuries received in a fall down the cliff."

Gill said the young English woman had visited the U.S. but went to Canada when she realized her visa was expiring.

A short time later she re-entered the States on foot, traveling through a sub-boundary area rather than an official border crossing point.

"We're of the opinion that Miss Sams was re-entering the United States illegally," Gill said.

When the young hiker failed to keep a date with California resident Max Morris, he chartered a helicopter to make an air search of the rugged terrain.

The charter service also mounted police helicopters, and an extensive U.S.-Canadian air and land search was launched.

It was abandoned five days later.

In desperation Morris contacted Miss Rhea, who has worked other missing persons cases with ability.

A few days later he handed the psychic's 90-minute tape recording to searchers telling them where Miss Sams could be found.

"She described the entire area and the girl's walk across the border in the first person, as if she was the missing woman," deputy Gill said.

"About 80 percent of the things she said could have been figured out by deduction — but 10 percent was right on the button — things she couldn't have known about."

Gill said he is so impressed with Miss Rhea's incredible powers, he may use her in other cases.

"A major search was conducted and lasted up nothing," he said. "Then Miss Rhea's tape tells us where to look — and bingo! We find the body.

"It was a really remarkable performance."

Psychic Katherine Rhea ... she led searchers to hiker's body in the mountains.

Sexy Raquel Welch gets the old heave-ho from cast of major film

BEST OF THE GOSSIP COLUMNS

Drama downs sex symbol **Raquel Welch** has gotten the boot in her latest attempt at a big flick. Curvy Raquel was to co-star with macho **Nick Nolte** in "Connecy Row." But after just four days of filming, the superbod who has always yearned to be an actress was canned for her temperamental demands. "She might as realize that she **Marilyn Monroe** era ended when Marilyn died," said one MGM insider. Another source said the last in a long line of problems with the would-be screen shouldn't lock the door to her career in any more big time productions. In fact, the source said the only thing left to do for the fiery Raquel is "spaghetti westerns." Meanwhile, Raquel claims she is being used as a scapegoat for the trouble that has plagued the movie since its beginning. And she told her lawyers to sue for this latest insult to her professional reputation. P.S. Now that Raquel is gone, her part has been given to saucy **Debra Winger**, the sizzling lady who stole "Urban Cowboy" right out from under her costar **John Travolta**. — James Brady

Handsome **Kris Kristofferson** may be Tinseltown's latest victim of a macho sex symbol, but his estranged wife **Rita Coolidge**, the singing star, isn't crooning the blues since their split last year. Leggy Rita's new sex symbol is crumpling actor **Joel Hill** and the lovey doves are planning a permanent tie once the divorce judge officially ends Rita's and Kris' marriage. — Rudy

Restaurant owner **Jacques de la Pintaine** threw a bash inside **David Brenner** is so funny. The two were rivals for the affections of the same young lady and ended up in a macho brawl. Nite Jacques has filed a $1 million suit for assault against the funnyman — claiming David dumped a bucket of ice water on his head and then punched him in his cold and wet face. — Dick Maurice

Chevy Chase is so depressed over the shocking death of a close friend that producers of Chevy's new flick "Under the Rainbow" wanted to replace him. It seems that Chevy can't pull up of the blues since National Lampoon writer **Douglas Kenney** plunged to his death when he accidentally fell from a roof during a Hawaiian holiday. — Marilyn Beck

Swedish sex dumpling **Brit Ekland** is fuming over the poor treatment she's getting from her ex-lover **Lord Lichfield**, the British photographer. Seems that Lichfield is getting back at Brit for listing him as one of her least exciting beaus in her latest book "True Brit." Now, the photographer is coming out with his own book called "The 10th Most Beautiful Women in the World" and guess who doesn't rank very high? — New York Post Headliners
